Subject No. 159 of the Representative Assembly Proceedings of 1906 and the reply of Government thereto regarding the opening of a new column in the Pahani Takhta to show the estimated out-turn of crops.

2. Correspondence ending with letter No. C. 92, dated the 7th October 1907, from the Revenue Commissioner in Mysore, forwarding the letters received from the Deputy Commissioners of Districts except Bangalore and stating that it is highly desirable to have a new column for the purpose of recording the estimated out-turn of each field or survey number.

No. R. 5003-12—L. R. 355-06-5, DATED BANGALORE, 12TH FEBRUARY 1908.

ORDER THEREON.—The present form No. 3 of the Village Accounts (Pahani Takhta) merely indicates the extent devoted to the cultivation of each crop without furnishing any information as to the estimated or actual out-turn. By Government Order No. 7866-74—R. F. 130-93, dated the 10th March 1897, a record called the enclosure to the Pahani Takhta was prescribed for recording the estimated yield of the principal food crops such as ragi, paddy, horse gram, Bengal gram, cholam and sugar-cane. As it has not been reproduced in the revised form of village accounts contained in the Manual for the use of Village Officers issued in 1902, it does not seem to be now maintained in some of the districts. It is also doubtful whether the information necessary to form a correct idea of the probable out-turn will be collected in any detail when it has to be entered for the entire village as a whole and it is therefore likely that the figures entered therein, even when it is maintained, are often arrived at by pure conjecture and cannot even be considered approximate. If the probable out-turn of each field is ascertained and recorded when the crops are on it, it will not only be easy to deduce the total for the whole village but the entries themselves will be capable of verification and will thus be made with greater care. A correct knowledge of the actual out-turn as compared with the estimated out-turn will afford the most useful indication as to the necessity for relief when the outlook becomes serious and its value in judging local economic conditions cannot be overrated. It is also in contemplation to fix standard out-turns for crops and issue general forecasts and these statistics will be of great use in determining them accurately.

Government therefore consider it necessary that the scope of the present Pahan, Takhta should be extended so as to afford information showing the estimated and actual out-turn of crops on each field.

As pointed out by the Revenue Commissioner this involves two inspections one while the crops are on the land and the other after they are harvested. The inspection to be now made by the Village Officers is fixed for the month of November, *i.e.*, before the crops are begun to be harvested. It is desirable that this inspection should be conducted somewhat more early to be followed by another after the crops are harvested. Village Form No. 3 will be modified so as to contain the necessary entries. With the detailed information now available, there ought to be no difficulty in giving the total estimated and probable yield for the village. These may be entered in a form similar to the old enclosure to the Pahani Takhta. The new Village Form No. 3 will hereafter be printed and kept as appended to this order and the revised instructions attached thereto will be observed in maintaining it.

Land Revenue, dated 12th February 1908.

REMARKS ON FORM No. 3.

1. A complete inspection of lands, crops and boundary marks should be made before November to be followed by another as soon as the crops are harvested. The earlier the first inspection is commenced the better. In some taluks it can be commenced earlier than in others according as cultivation is commenced earlier or later according to local practice.

2. The inspection must extend to every number in the village, forest numbers excepted.

3. It is necessary for the purpose of this return to estimate the condition or out-turn of the crop on every field. The Shanbhog and the Patel should carefully inspect the standing crops and note approximately what the probable out-turn of each crop would be as judged from its then condition. Similarly as regards crops harvested, the Village Officers should note from personal inspection and enquiry the out-turn obtained in each field under each different crop. The out-turn should be given in annas, a bumper crop representing 20 annas, average 16 annas, middling 8 annas and bad 4 annas and under.

4. The total of column 5 should correspond with the total of column 4 of Form No. 1, " Phut Kharab " being shown separately as indicated. Cultivation in " Phut Kharab" need not be noticed but cultivation under proper authority in unassessed land should be shown.

5. In dry crop cultivation, areas less than 1 gunta and in garden and wet cultivation less than ¼ gunta need not be separately recorded. Care should be taken to record correctly the area occupied by crops cultivated as minor constituents of mixed crops. Early crops grown before the principal crop of the season or second crops grown after early crops have been reaped, should be shown as carefully as the principal crops. The area left unsown in each number should be carefully recorded. The total area of each number will thus be accounted for. When fruit trees are grown in a distinct area of occupied land, the area should be shown in (column ii) and the kind and the number of bearing trees specified. If trees are grown here and there or in boundaries or in waste, no area need be allotted to them.

6. In order to facilitate the classification of crops from the abstract prescribed for this Form, letters K and V should be entered against crops which are sometimes grown as " Kartik " and sometimes as " Vaisakh." When both " Kartik" and "Vaisakh" crops are grown in a survey number in the same year, the latter should be marked " Vaisakh."

7. The Shanbhog and Patel are required to examine all boundary marks of their village once a year. This inspection may be at the same time as the inspection of lands and crops. The orders of Government regarding this inspection are contained in Land Revenue Code, Rule 85. All marks out of repair or missing must be at once entered in Village Form 3A, for second inspection and disposal as provided for in the Form.

8. Encroachments affecting the state of the boundary marks should be entered in Form 3A as well as reported to the Amildar for orders.

Letter No. 6472, dated the 17th December 1907, from the Revenue Commissioner in Mysore, submitting for orders a file of correspondence relating to the grant of a loan of Rs. 300 to one Srinivasa Jois of Hiriyur in the Chitaldrug District, and recommending the remission of the loan on the ground that though the applicant had spent more than Rs. 800 on the well, it collapsed owing to causes beyond his control as the soil was loose and the revetment not given a proper slope and suggesting that in order to prevent similar failures in future, specifications and estimates should be required to be furnished with each application and that the higher Revenue Officers should scrutinize them, seeking if necessary the professional opinion of the Public Works Department before sanction is accorded to the grant of the loan.

No. R. 4976-86—AGRI. 30-07-8, DATED BANGALORE, 11TH FEBRUARY 1908.

ORDER THEREON.—Under the circumstances represented the remission of the loan is sanctioned.

2. Government agree with the Revenue Commissioner in thinking that the higher Revenue Officers should realize their responsibility in the grant of such loans and that no loan should be granted unless they have personally satisfied themselves with the help of the Public Works Department, if necessary, that there is a reasonable prospect of the well being successfully sunk and its construction and revetment properly executed.

The following papers relating to the settlement of the extensions of the Ragihalli State Forest in the Anekal Taluk, Bangalore District.

(1) Letter No. 274, dated the 16th May 1907, from the Forest Settlement Officer in Mysore.

I have the honor to forward herewith for the approval of Government, final report on the conclusion of the settlement of the two forest extensions proposed by the Forest Department, on the north and south of the Ragihalli State Forest in the Anekal Taluk of the Bangalore District.

2. The blocks were notified for settlement in May 1906, with Government Notification No. R. 14884—Ft. 192-05-3, dated 19th May 1906, copy of which appeared on page 220 of the *Mysore Gazette* (Part I, English), dated 24th May 1906 Proclamatory notices under Section 5 of the Forest Regulation were published in the *Mysore Gazette* (Part II, Kanarese, pages 549 and 550), dated 5th July 1906, and spare copies thereof were also sent for local circulation through the Amildar, Anekal Taluk. Three months' time fixed under clause (*d*) of Section 5 of the Regulation, expired on the 5th October 1906, by which time the above notices were received back from the Amildar, with endorsement of service on the villagers concerned.

3. The tract was perambulated on the 24th, 25th and 26th October 1906, in company with the District Forest Officer, Mr. T. Abdulkarim, and enquiry under Section 7 was duly instituted.

4. The object of extending the State Forest by adding to it on the north and south, fresh areas is chiefly to make the existing block a compact one and also to give a regular shape to the forest. The growth on the area proposed to be added on to the Forest is jalari, bamboos, kiribidaru, alale and a fair sprinkling of sandal. The adjoining tract on the north is gomal and kharab (kaval), on the east and south are the jodi villages of Mahantalingapura and Baskara Vajarahalli and on the west the proposed tract is bounded by the State Forest. The growth here deserves to be guarded against reckless fellings. This tract is the nearest forest to Bangalore; the distance being 12—15 miles, and its proximity to the Provincial Head quarters, is likely to yield a good revenue when systematic work is set in hand without prejudice to the interests of the agriculturists and raiyats.

5. The claimants that appeared were heard and their statements recorded. There are no other claimants than those examined by me and the constitution of these proposed blocks into State Forests, does not affect the interests of any other villages.

6. The nature and extent of claims preferred is as mentioned below :—

1. Four claims for right of free grazing.
2. One claim for right of way
3. One claim for right to remove minor forest produce.
4. One claim for right to water.
5. One claim not falling under any one of the above.

Of the four claims in (1), two were rejected as unnecessary and the other two were admitted and disposed of in the manner mentioned in the claim Register against claims 1 and 6.

The claim in (2) was admitted and recorded.

The claim in (3) was disposed of by excluding the katte from the State Forest.

The claim in (4) was rejected for reasons noted against claim 2 of the B Register,

The claim in (5) was admitted and recorded. This claim in particular refers to land Survey No. 71 of the Ragihalli village and the merits of this claim have been fully discussed in column 8 of the B Register.

7. The Deputy Commissioner, Mr. H. H. Sparkes, called for the settlement records of the north extension on the appeal preferred by the raiyats of Sampigehalli and Kariappanahalli-hamlets of the asali Bannerghatta village-against the inclusion of a portion of Survey No. 130 and of full Survey No. 134 and intimated to me in his No. R. 3537, dated 15th April 1907, that he had dismissed the appeal as the reasons set forth in support thereof were not tenable.

Proceedings of the Government of His Highness the Maharaja of Mysore,

8. As regards the inclusion of Survey No 71 of the Ragihalli village within the southern extension, one claimant Koppada Puttappa who is the lessee of this number objected at the time of settlement to the proposal of the Forest Department on the ground that it belonged to the Bannerghatta Chattram and that he had taken Survey No. 71 together with some other numbers, *viz.*, 74, 76 to 84 on lease for ten years from the year Subhakritu and that he has been paying Rs. 100 for the numbers mentioned above, and further represented that these were the Inam lands of the Bannirghatta temple. The District Forest Officer who was present at the time of enquiry, had no objection to the existing enjoyment of claimant Puttappa, continuing till the expiry of the period of his lease and stated that afterwards the Forest Department would be prepared to pay any amount annually that the Government in the Muzrai Department might fix as reasonable.

9. Under the circumstances it was decided that the Survey No 71 in question should be included in the Forest boundary without prejudice to the claims of the lessee on the land till the expiry of the period of lease. Puttappa then appealed to the Deputy Commissioner against this order and the entire records were sent to the Deputy Commissioner, as called for by him in his No. 339, dated 20th November 1906. Subsequently in his No. 2477, dated 19th January 1907, the Deputy Commissioner has stated that the District Forest Officer has agreed to withdraw his proposal in so far as it relates to this Survey No. 71 and that therefore the Survey No. in question should be thrown out of the settled tract.

10. The following records are herewith submitted :—

1. "B" Register of claims.
2. "C" Register of lands taken
3. Boundary notification, under Section 17.
4. A sketch of the Forest extensions together with a Topo-tracing thereof.

11. The date from which reservation has to take effect may be noted in the above draft boundary notification.

(2) Letter No. 9987, dated the 13th June 1907, from the Conservator of Forests in Mysore, to the Revenue Commissioner in Mysore, furnishing his opinion on the settlement.

(3) Letter No. 6468, dated the 17th December 1907, from the Revenue Commissioner in Mysore.

With reference to your memo No R. 10291, dated 1st June 1907, forwarding copy of your letter No. R. 10290 of the same date to the Conservator of Forests, calling for his and my opinions on the settlement of the north and south extensions of the Raghihalli State Forest in the Bangalore District, I have the honor to forward herewith letter No. 9987, dated 13th June 1907, from the Conservator together with the connected papers and to offer the following remarks:—

The area proposed to be added to the State Forest on the north and south is 1·93 square miles and 1·25 square miles repectively as shown in the margin. It is observed that the forest growth in the two extensions is not very important and that the object of the extensions is stated to be chiefly to make the existing block a compact one and also to give it a regular shape (*vide* para 4 of the Settlement Officer's letter No. 274, dated 16—8th May 1907). This object is served so far as the north extension is concerned as seen from he sketch. The grazing requirements of the villagers affected by the inclusion of this tract ppear to have been properly considered and suitable provisions made to meet them. But he claim of the Bannerghatta villagers for removal of dry firewood free for *bonâ fide* domestic onsumption, which has been disallowed by the Settlement Officer, deserves favorable consideration, as Bannerghatta is an important village with a large population (538) and as the remaining extent may not be sufficient for this purpose.

II. South Extension— Ragihalli ...	... .	806·31 or 1·25 sq. miles	

As regards the south extension it will be seen from the sketch that it makes the original block neither compact nor regular in shape as it was at first intended. The District Forest Officer originally proposed the inclusion of the entire Ragihalli village in the reserve as an enclosure but the Settlement Officer finding the objection of the villagers reasonable, ordered its exclusion to make them independent of the Forest Department, only an extent of 806 and odd acres of gomal land situated on the east of the village being added to the Forest, without this addition, the State Forest might perhaps be more compact and regular in shape. Thus not only the chief object of this extension is defeated but also the village, as it is, is hemmed in by the State Forest on its three sides and it is doubtful whether the Settlement Officer has after all removed the difficulties which the villagers complained against.

1	Kottanna, patel of Bannighatta on behalf of the villagers	26th Oct 1906	Represents that the villagers are not willing to give up a portion of gomal Survey No 130 as proposed by the Forest Department as they have no other place to graze their cattle and kharab land Survey No 131 on which they have been also grazing their cattle	Survey No 130 is shown as gomal in Khetwar and Survey No 131 as kharab The patel says that the villagers have been grazing their cattle for a very long time	The Forest Officer wants these lands for making Ragihalli forest proper a compact block moreover the officer who proposed these lands says that the lands are richly wooded and that they also contain bamboos and a fair sprinkling of sandal He wants these lands to be brought under the management of the Forest Department for improving the growth thereon	Inspected the proposed tract The shape of the Ragihalli forest proper is very irregular As stated by the District Forest Officer the addition of these lands to the State Forest gives a regular shape and makes it a compact block The villagers claim to leave alone gomal and land Survey No 130 portion of which has been proposed is not well founded for the following reasons — Bannighatta village consists of the following hamlets — 1 Kompanahatti 2 Sampigehalli and 3 Karuppanhalli and the cattle in each of them is as follows Bannighatta: Cows 162, Bulls 61, Bullocks 16, Sheep 22, Total 261 Kompanahatti: Cows 69, Bulls 4, Bullocks 12, Sheep —, Total 111 Karuppanhalli: Cows 56, Bulls 4, Bullocks 29, Sheep —, Total 119 Sampigehalli: Cows 126, Bulls 6, Bullocks 22, Sheep 50, Total 204 Total: Cows 413, Bulls 75, Bullocks 79, Sheep 72, Total 729	The Deputy Commissioner Mr Sparkes states in his letter No R 867 dated 15th April 1907 as follows — I returning herewith the enclosures received with your letter No 19 dated 30th January 1907 and 2nd February 1907 in re the appeal preferred by the ryots of Karuppanhalli and Sampigehalli villages in the Anekal Taluk, against your decision of including the whole of Survey No 131 and part of Survey No 130 in the Ragihalli State Forest, I have the honor to state that the reasons brought forward by the ryots are not at all sustainable as the actual extent of grazing ground has not been curtailed to any extent worth mentioning by the inclusion of these numbers into the State Forest and that I have therefore dismissed the appeal of the ryots " (Sd) H H Sparkes, Deputy Commissioner 15th April 1907

						From enquiry, I learn that the cattle of Kariappanhalli and Sampigehalli graze in land Survey Nos. 130 and 134 and those of the other two hamlets in gomal land Survey No. 2, the extent of which is 585 acres and 38 guntas. As per above statistics Sampigehalli and Kariappanhalli hamlets contain 853 cattle. As per Revenue Survey computation of 30 acres per 100 head of cattle, I think that 353 cattle require about 106 acres. The Forest Department wants only 200 acres out of gomal Survey No. 130, the extent of which is 439 acres and 31 guntas. The extent that will be left is sufficient for twice the number of cattle in the two hamlets. I decide, however, that about 40 acres should be left from the proposed area which exclusion will also make the forest boundary straight, and order as a matter of concession and as agreed to by the District Forest Officer, that 353 cattle of these two hamlets (Sampigehalli and Kariappanhalli) should be allowed to graze at a concession rate of two annas per head per annum in convenient portions of the State Forest to be fixed from time to time by the District Forest Officer. (Sd.) M. Shama Rao, Forest Settlement Officer. 25th October 1906		
	Kottanna, patel of Bannerghatta on behalf of the villagers	25th Oct. 1906	Requests that the raiyats may be allowed to bring firewood *gratis*.	Nil	The District Forest Officer states that the area left for the village is convenient for them to exercise their rights and privileges.	As I am not convinced of the raiyats' enjoying any such right in the lands required by the Forest Department, I reject the claim. (Sd.) M. Shama Rao, Forest Settlement Officer 25th October 1906.		

Forest, dated 3rd February 1908

Patel of Byrappanhalli on behalf of the villagers.	25th Oct. 1906.	Requests that Futtumankatte may be excluded from the forest for watering their village cattle.	This is a manual right.	Admits the claim.	The katte referred to has been excluded from the forest as prayed for by the villagers. The area of the forest will not be affected by the exclusion. (Sd.) M. Shama Rao, Forest Settlement Officer. 25th October 1906
Patel of Byrappanhalli on behalf of the villagers.	Do	Requests that gomal Survey No. 16 may be entirely excluded.	Supported by the village accounts.	The District Forest Officer wants this portion to be taken up for making Ragihalli State Forest a compact block.	I have inspected the boundary. There is not much force in the contention that the portion left is rocky. The Forest Department wishes to take only 195 acres out of Survey No. 16, the extent of which is 491 acres and 28 guntas. Deducting what is required for forest purposes, the villagers will be left 229 and 28 guntas which provide grazing for nearly 500 cattle according to the computation of 30 acres per 100 head of cattle. But the village contains only 125 cattle. Hence the claim is rejected. The villagers have no other claims to rights in the lands proposed. (Sd.) M. Shama Rao, Forest Settlement Officer 25th October 1906.
Nanjundappa, patel of Bhutanahalli	Do	The patel who represents the villagers says that he has no objection to give up the gomal land Survey No 120 measuring 92 acres and 8 guntas, provided that they are allowed to take their cattle for water in the Doddahalla katte in the Ragihalli State Forest.	Nil	The District Forest Officer wants the claim to be rejected as it does not concern the present settlement.	The District Forest Officer states that the tank referred to is not in the area notified for settlement. The villagers admit this. Apart from this claim I see that the village consists of 253 cows and bulls and 75 sheep and the total extent of gomal is 1,098 acres and 11 guntas. But the extent of gomal wanted by the Forest Department is only one Survey No. 120 with 92 acres and 35 guntas. Deducting this from the total gomal area, the villages will still have 1,006 acres and 21 guntas which seem to be more than what is required for their cattle. I consider that this extent will also provide for any further increase in the number of cattle. The village is a dwindling one with 18 houses and a population of 74 and there is no probability of either cattle or population increasing. (Sd) M. Shama Rao, Forest Settlement Officer 25th October 1906.

Forest, dated 3rd February 1908.

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. R. 4841-5—Ft. 208-06-4, DATED BANGALORE, 3RD FEBRUARY 1908.

ORDER THEREON.—Government observe that the claim of Bannerghatta villagers for dry firewood deserves consideration. They will be allowed to remove dry firewood free for *bona-fide* domestic consumption at the rate of one cart-load per month for each family of five persons.

2. With the above modification, the settlement of the north extension block is approved. A notification of the boundaries of the block as hereunder is approved and will be published under Section 17 of the Forest Regulation, the 1st March 1908 being entered as the date from which the block shall be declared a State Forest.

3. The Deputy Commissioner of the Bangalore District is requested to promulgate the boundaries of the block in the localities in which it is situated.

4. The appropriation of 768 acres and 27 guntas of kharab and 447 acres and 33 guntas of gomal land for forest purposes is sanctioned.

5. In regard to the proposed south extension, Government observe that as stated by the Revenue Commissioner it is inexpedient to have the village (Ragihalli) hemmed in by the Forest on three of its sides and therefore direct that the same be excluded from reservation.

NOTIFICATION.

No. R. 4846—Ft. 208-06-5, dated Bangalore, 3rd February 1908.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900), that, from 1st March 1908, the area, the boundaries of which are set forth in the schedule annexed to this notification, shall be deemed to be a "State Forest," subject to the exercise of rights specified at foot thereof:—

SCHEDULE.

District	Taluk	Approximate area	Name of block	Boundaries
Bangalore	Anekuel	1-93 square miles	Ragihalli State Forest North Extension	*North.*—Starting from the common bandhs of the Regihalli State Forest and Survey No. 64 of Bhutanahalli village, the line runs south-east to the southern most corner of Survey No. 64 where it meets the Bannerghatta Kaval, then south along the said Kaval boundary till it meets its south-west corner, then north-east, south and east along the southern boundary of the Kaval to its south-east corner (tri-junction of Bhutanahalli, Bannerghatta Kaval and Bhairappanahalli), then east through Survey No. 16 of Bhairappanahalli for a distance of about 50 chains to a point in the east side of that number about 84 chains to the north from the southern most corner of that Survey number, then east through Survey No. 130 of Bannerghatta for a distance of about 33 chains to the point where it meets the demarcation line of the Ragihalli State Forest about one furlong to the west of the south-west corner of the Vaiarahalli village.

Forest, dated 3rd February 1908.

East, South and West.—The Demarcation line of the Ragihalli State Forest.

Remarks:—

A. Nil —

B. The following rights are admitted within the block:—

1. Three hundred and fifty-three cattle excepting goats of Sampigehalli and Kariappanahalli, hamlets of asali Bannergatta village, are allowed to graze at a concession rate of two annas per head per annum in a convenient locality of the State Forest which may from time to time be fixed by the District Forest Officer.

2. The raiyats of Bannerghatta are allowed to remove dry firewood free for *bonâ-fide* domestic consumption at the rate of one cart-load per month for each family of five persons.

By Order,

C. S. BALASUNDARAM IYER,

Offg. Secy. to Govt., Gen. & Rev. Depts.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The following papers relating to the revival of Kumri cultivation in Mysore.

Subject No. 89 of the Representative Assembly Proceedings of 1906.

Summary of discussion.—The facilities which were formerly afforded for *Kumri* cultivation have now been taken away. It is, therefore, requested that the old rules may be restored. Owing to the delay in granting such lands caused by having to consult the Forest Department, many poor people are deprived of their livelihood.

Reply of Government.—The Conservator of Forests will be again consulted as to whether any greater facilities may be allowed for the grant of such lands, and the matter will be further considered on receipt of his opinion.

2. Letter No. 1905, dated the 19th August 1907, from the Conservator of Forests in Mysore, submitting a report on the above.

With reference to your dockets Nos. R. 15343—Ft. 206-05-2 and R. 6029—Ft. 131-06-1, dated 30th May and 15th December 1906, respectively, regarding Kumri cultivation in the Shimoga Ghats, I have the honor to report as follows:—

2. Kumri cultivation was extensively practised throughout the northern and north-western borders of the Province till 1847, when upon a report of Colonel Onslow, Superintendent of Nagar, that this primitive and rude mode of cultivation was ruinous to forest growth, and further, that it was objectionable on climatic grounds, it was put a stop to.

3. The prohibition gave rise to frequent and numerous complaints from the raiyats of Nagar and Sagar Taluks, who bitterly complained that it led to the increase of wild animals by the encroachment of for estson village lands and cultivations and that the arecanut industry, their main stay, suffered grievously owing to the emigration of the Mahrattas who followed this form of cultivation, and upon whom they were dependent for their labour supply.

4. Their grievances were strongly supported by the District Revenue Officers who urged a relaxation of the prohibition. The Chief Commissioner (Mr. Bowring) as a result of his own personal observation of the Kumri tracts, reported to the Government of India in his letter No. 1600-9, dated the 21st June 1869, recommending the revival of Kumri in the interests of the resident population. Thereupon, the Government of India directed that a report should be obtained from the Conservator of Forests as to the effects of its re-introduction on forests and water-supply. The Conservator of Forests (Colonel Van Someren) after a prolonged tour in the ghats submitted his report in his letter No. 1567, dated the 14th March 1871, recommending the cultivation in old Kumri lands upon certain conditions. The Government of India finally sanctioned the proposal in their letter No. 121, dated the 9th August 1871, upon the condition that the area assigned for the purpose should not exceed the total area under other cultivation and that the lands so allotted should be marked off by the Revenue Survey Officers.

5. It does not appear, however, that any effect was given to these orders, for we find that upon the question again being raised by the Deputy Commissioner, Shimoga, in 1879, the Chief Commissioner (Sir James Gordon) in his Proceedings No. 1056-57—R. 215, dated the 26th June 1879, with considerable reluctance, sanctioned the revival of the cultivation subject to several rigid restrictions; and called for detailed proposals on the subject. Upon this, the Deputy Commissioner, Shimoga, referred the matter to the Superintendent of Revenue Survey (Colonel J. P. Grant) who while pointing out the inadvisability of the proposed step, reported that the conditions imposed by the Chief Commissioner were impracticable.

6. The whole question seems to have been shelved after this, for we find no mention of it till 1885, when upon the representations of the raiyats, the Deputy Commissioner, Shimoga, was called on to submit proposals for re-introducing Kumri in definite localities. After going over the entire area of the Kumri country the Deputy Commissioner (Mr. V. P. Madhava Rao) submitted an exhaustive report on the subject in his Memo No. 72, dated the 17th September 1891, in which he recommended Kumri cultivation upon certain conditions in localities where he considered that it was necessary. His proposals were approved by the Government. The Inspector-General of Forests then drew up a scheme for giving effect to the orders of Government, the object of which was, the preservation of reserved trees and trees yielding minor forest produce and the introduction of valuable species, such as, teak, sandal, honne, etc., in kumried areas. With these safeguards, Mr. Madhava Rao's proposals were brought into force, but the efforts made to preserve reserved and other trees and to re-stock the areas with valuable species, as might have been foreseen, failed. Gradually, the restrictions and conditions imposed by Mr. Madhava Rao were also ignored. Though nominally Forest Officials were expected to inspect lands applied for for Kumri, this duty was not

performed at all or was performed in a perfunctory manner, so that valuable forest tracts were laid low by the axe of the Kumri cultivator and reduced to ash. Very often, no permission was sought for. The cultivator instigated by the shanbhog or the patel took up any land that appeared to him most suitable for his purpose. Thus, extensive areas have been denuded of their original forest growth, especially in the Sagar Taluk.

7. During my frequent tours in the Nagar and Sagar Taluks, I have traversed the whole of the Kumri tract extending from Kavaledrug in the south to the Jog Falls in the north and came in contact with a large number of Mahratta kunbies and their landlords, the shanbhogs and patels; and have been greatly struck by the enormous destruction and loss of forest wealth caused by these men. Nagar Taluk has not suffered so much as Sagar. In the latter, compact blocks of virgin forest of any appreciable extent are rarely met with, and the whole area forms a congeries of low bare hills scantily stocked with belts of evergreen trees along streams. In Nagar, we still find large stretches of primeval forests rich in all the denizens of the ever-green forests—such as ebony, kiralbogi (*Hopea parviflora*), white cedar (*Dysoxylum*) and nagasampige (*Mesua ferrea*). In the Sagar ghats, nandi and karimatti form the predominant species.

8. It was once believed that these forests contained nothing of value, and that their remoteness from markets and inaccessibility rendered their profitable working impossible. The Nagar and some of the Sagar forests have been extensively worked during the past three years for the supply of timber to the Gold Fields, the operation resulting in a net profit of eight to ten annas per cubic foot. Some sales have also been effected in the extreme northern forest, the materials in this case being extracted by the purchasers themselves. These sales would increase considerably when the proposed road to the Bhatkal port is completed. One can easily conceive what the forest wealth of the district would have been but for the depredations of the Kumri cultivator However, nothing is gained by lamenting over the past, but it behoves us to preserve what little that is left and to restore the original conditions by rigid conservancy and protection. All large areas of forests have been already proposed for reservation; but this is not enough. The Kumri cultivator must be gradually weaned from his pernicious mode of cultivation and induced to take to regular cultivation. It may not be expedient to rigidly prohibit Kumri all at once, for such a step is sure to create great discontent and would injuriously affect the well-being of the agriculturists.

9. The Kumri cultivator is not extravagant in his demands. He is content with the minimum area that will support him and his family. I understand that two acres are quite ample to support a family of five souls. The returns from Kumri are far greater than from any other kind of cultivation. The cost of cultivation also is comparatively very small, as all the stock required is an axe or bill hook and seed grain. Under proper guidance he could, however, be induced to settle down as a regular cultivator, but he will never do so as long as he has a free run of the forests.

10. What I propose, therefore, is that each Mahratta kunbi be allowed one acre of land for Kumri every third year on the distinct understanding that he is to take up at the same time, a minimum of three acres of paddy land which he may be allowed to hold rent free for three years. There is a very large area of assessed and unoccupied waste in the Kumri tract, and I understand that the agricultural population there has greatly decreased. The reclamation of these waste lands is therefore only possible with the introduction of colonists. I doubt very much whether the maidan or the down ghat raiyats could be induced to settle down in these inhospitable regions. But the Mahratta kunbi is already there, and all that is required to make him an agriculturist is to restrict the area under Kumri and to afford him means to start as a regular cultivator.

Left to his own resources, he will never be able to provide himself with the requisite agricultural stock—unless he choses to become the lifelong slave of a rich patel or shanbhog. The Mahratta kunbi likes to be independent and a few here and there have taken up land on their own account. Government help is, therefore, indispensible to enable him to settle down as a regular cultivator. I, therefore, propose that a pair of bullocks and five rupees worth of seed grain be supplied free to each kunbi under the conditions above mentioned. At the outset, I would equip only 50 carefully selected men in this manner. If the experiment succeeds, it may be extended hereafter. But a novel scheme like this is bound to fail if the interests of the kunbi are not sympathetically watched, and if he is not protected from creditors and money lenders. A special shekdar must be appointed for this purpose whose sole duty must be to allot lands for Kumri and rice cultivation and to see that the plough cattle lent or given free by Government are properly taken care of and that they are not transferred or sold. An identical scheme was launched by me in the Mandla District of the Central Provinces with the generous support of the Chief Commissioner, Sir Antony MacDonnel, but as I was transferred shortly afterwards, I am unable to furnish the results of the experiment. There we had to deal with a much larger and wilder population, and their entire management was left

Forest, dated 7th February 1908.

in the hands of the Forest Department. Here, I would leave the business in the hands of the Revenue Department but a list of areas intended for Kumri will be prepared by the Forest Department once for all and furnished to the Revenue Department so as to avoid the delay complained of in assigning lands.

11. I hope, I shall not be considered to have travelled beyond my province, if I conclude this report by making three suggestions for the consideration of Government:—

(*a*) The whole of the ghats is well suited for cattle farming. Pasturage is abundant and water-supply plentiful. I think the country offers scope for the rearing of a finer breed of cattle than that now met with in these parts. I would, therefore, suggest that a two or three years' old Amrut Mahal bull-calf be supplied to each of the larger villages. This breed is doing exceedingly well in the Coorg ghats under conditions similar to those obtaining in our ghats.

(*b*) My second proposal is, that the tree tax on toddy trees be remitted altogether, or be considerably reduced in the northern and western maganis of Nagar and Sagar. In their joint report on Sorab Kans Dr. Brandis, Inspector-General of Forests with the Government of India and Captain Grant (page 23, para 16 of selections from the Records No. 14) refer to this subject in the following terms:—

"The toddy (Shéndy) is looked upon as a necessary of life by a large portion of the agricultural classes and it is generally believed that, if their supply of toddy failed, fever and other diseases would compel the "Halapaikas" and others to leave the country in large numbers. Intoxication is rarely witnessed nor is crime common."

(*c*) The third and last proposal which I would wish to commend to the consideration of Government is that grazing and hulbanni fees be remitted throughout the Sagar and Nagar ghats; and that timber of kinds, other than reserved and classified, be allowed free of royalty for house-building and agricultural purposes,—these concessions being limited to pure agriculturists.

3. Letter No. C. 81, dated the 29th September 1907, from the Revenue Commissioner in Mysore, furnishing his opinion on the above.

With reference to your letter No. R. 1809—Ft. 131-06-3, dated 6th September 1907 forwarding for an expression of my views after consulting the Deputy Commissioner, Shimoga District, copy of letter No. 1905, dated 19th August 1907, from the Conservator of Forests in Mysore, on Dasara Representative Assembly Subject No. 89 of 1906, *in re* Kumri cultivation, I have the honor to forward letter No. 219, dated 21st September 1907, with its enclosure, received from the Deputy Commissioner, Shimoga District, and to state that I am not fully conversant with the subject of Kumri cultivation and feel, therefore, very diffident in making any comments on the valuable suggestions offered by the Conservator. He thinks that Kumri cultivation is wasteful and has rendered portions of the Sagar Malnad a treeless waste and that it is not likely that the down ghat or maidan raiyats can be induced to settle down on the waste lands in the Kumri tracts and that the Mahratta kunbi who is on the spot should be persuaded to settle down to agriculture by holding out inducements and thus generally weaned from hankering after Kumri cultivation. It is not clear what is the strength of this class of people and how they are now earning their living. There is, however, no objection to the experiment being tried. In order, however, that it may have a fair trial with every chance of success, I would suggest that Mr. Muthanna may himself be authorised to carry on the experiment. Funds may be placed at his disposal for making the required advance and both wet and the necessary hakkal dry lands may be given out free for three years as proposed. I may, however, state that the liberal concessions granted by Government to the Sagar Taluk by abolishing the Sayer and sanctioning a revision settlement with low rates of garden assessment and very easy rates of wet assessment, especially in the backward maganis, will do more to attract population and extend cultivation than even the proposed experiment.

In spite of facilities for fodder and water-supply, the cattle are scarcely able to stand the heavy rainfall of the western malnad and it is very doubtful if the Amrut Mahal bulls will thrive there or help to improve the breed of cattle. Two or three good breeding bulls may, however, be granted free of cost to influential patels if they agree to keep them and give them free for breeding purposes to raiyats in the neighbourhood. More good is likely to result from a more favorable Excise administration in regard to the vend of Bagani toddy in the malnad. I have not studied this question and am not in a position to make any definite proposals. But if any arrangement can be made for the supply of liquor to the working population in the whole of our malnad country at cheaper rates, there is every likelihood of its becoming more prosperous even if the Government should sustain a slight loss in Excise revenue.

As regards the remission of grazing or hulbannı fees, it is not clear what amounts are realised in the particular tracts, but there can be no objection to their being remitted if the proposal is likely to give an impetus to cattle breeding or to improve the condition of the villagers.

ENCLOSURE No 1

Letter No. 219, dated 21st September 1907, from the Deputy Commissioner, Shimoga District, to the Revenue Commissioner in Mysore.

In returning the enclosures of your letter No 3423—2 of the 10th—13th instant, *in re* Kumri cultivation, I have the honor to submit herewith extract of paras 12 and 13 of my letter to the Survey Superintendent, dated the 11th instant, containing my views on the revival of this species of cultivation in the Sagar and Nagar Taluks of this district and to state that one acre of land as proposed by the Conservator of Forests is not sufficient Two or three acres at least will be required for each family

2. I agree with Mr. Muthannah in the opinion that in order to make the Mahratta kunbis settle down as agriculturists, facilities should be afforded to them by the grant of rice land on favorable terms and of a pair of bullocks and seed grain free of charge, but I would not insist on their taking up rice land as a condition precedent to the grant of land for Kumri cultivation. These concessions should, moreover, not be confined to Mahratta kunbis alone, but should be extended to other persons who may wish to come and settle down above the ghats

3. The Conservator's proposal, that grazing and hulbannı fees be remitted throughout the Nagar and Sagar ghats and that timber of kinds other than reserved and classified be allowed to agriculturists free of royalty for house-building and agricultural purposes, is commendable. Classified trees will of course be available to them at concession rates.

4. As regards the concession of bagani toddy, at present, kan holders are allowed to tap bagani trees in their kans free of charge for *bona fide* domestic consumption This concession is shown only to kan holders and members of their families, but not to their servants This restriction has been the subject of complaint but any general concession in the manner proposed by the Conservator would be prejudicial to the interests of the Excise revenue and is not desirable. I would suggest that the right of kan holders to bagani trees in their kans may be purchased by Government on payment of reasonable compensation and the trees solely reserved for the purpose of the Excise revenue.

5. I am not sure if Amrut Mahal bulls will thrive in the malnad, but an attempt may be made to improve the breed of cattle by supplying breeding bulls to persons who wish to take care of them.

12. In paragraphs 63 to 65, Colonel Grant gives a history of Kumri cultivation, and while he is of opinion that this species of cultivation may be revived in the ten villages (forming new group V) situated to the extreme west of the taluk, he would prefer to wait to see if (1) the abolition of the supari halat, (2) the proposed opening up of the country by roads and (3) the low rates of assessment which will be authorized by the revision settlement, will not be sufficient to attract population to this tract. The three advantages enumerated by Colonel Grant will no doubt conduce to the extension of garden cultivation but will not directly benefit the non-resident kunbis who usually carry on Kumri cultivation in cleared forest land. It is only the revival of Kumri that can attract them yearly over the border. Subject to certain restrictions laid down in the correspondence printed with Government Proceedings No. 11221-29—R. F. 222-92, dated 28th December 1892 and No. 5361-9—R. F. 222-92, dated 14th September 1894, Kumri cultivation has been permitted in the Sagar and Nagar Taluks since 1892 and I give below a statement of the area taken up in each year since that date.

probably to the rule that the kunbi cultivators should rear up timber and gall-nut plants in the Kumried portions. This rule is simply impracticable and requires to be abolished at once. Considering the small area that is likely to be taken up for Kumri and the advantages accruing from it, I am of opinion that facilities should be given for it on the lines indicated in para 14 of Mr. V. P. Madhava Rao's able memorandum printed at pages 74—77 of Selections No. 14. Once for all the tracts or blocks available for Kumri cultivation in the villages requiring it should be marked off after consultation with the Forest Department. The tracts to be marked off being usually situated in the neighbourhood of villages and no cultivation being permitted in the upper third of the slopes of hills, there need be no apprehension that valuable timber-forest would be destroyed. The assessment now levied is annas 8 per acre.

4. Memo dated 17th September 1891 on the renewal of Kumri cultivation by Mr. V. P. Madhava Rao, Deputy Commissioner on Special duty.

1. The papers appended show that, almost from the time Kumri was prohibited, there have been complaints against the order of Government from the raiyats of the western malnad of Sagar and Nagar. The question has been carefully considered by high officers of the late Commission from different points of view, and one and all have been in favor of the revival of Kumri to a limited extent.

2. So far back as 1869, the Superintendent of Nagar Division reports* that "the evils which have resulted from stopping Kumri" are "the increase of wild animals and consequent destruction to the crops of the land under regular cultivation" and "the loss of the service of the Mahrattas who lived by Kumri and were of great assistance to the wargdars. The latter is an evil yearly felt with greater intensity..." Mr. Bowring, the Commissioner in Mysore, confirms the above opinion after a personal inspection of the malnad during a tour along the frontier of the Nagar Division. In his report ‡ to the Government of India he says:—"Hundreds and hundreds of acres are to be seen lying fallow in these frontier taluks owing to the want of labour.....The means of the wargdars have been much straitened, the aid which they procured from the neighbouring Mahrattas and others who cultivated within their holdings having been, not only remunerative to them, but useful in a variety of ways."

* Letter No. 638-255, dated 4th March 1869.

‡ No. 1600-9, dated 21st June 1869.

3. Again Captain Van Someren, the Conservator of Forests in Mysore, who, under instructions from Government, went over the ghat portions of Nagar and Sagar in the early part of 1871 and made a detailed report * upon Kumri, observes that "Tarekulli and Gensinakuli, Nos. 5 and 6 were entirely desolate, and the gardens at Kadakodu, (No. 4) were all but abandoned. At Hollapura, one of the large villages in that locality, the gardens though better than at the spots just mentioned, were much in want of careful looking after. At Kulurmane, the gardens were surrounded with old Kumri covered with dense small growth, and the owners complained bitterly of the order prohibiting Kumri. He also says that "the stoppage of Kumri cultivation had largely reduced the population of the country, that paddy fields and arecanut gardens had all suffered from want of sufficient labour," and in another place that "the chief grievance is undoubtedly the loss of labour."

* No. 1507, dated 4th March 1871.

4. Though much has been done in opening out the western malnad of Sagar and Nagar, since the Conservator of Forests traversed these parts in 1871, there has not been any improvement in the condition of the raiyats, or in the state of cultivation. The Deputy Commissioner of the Shimoga District in his report * to the Commissioner of the Nagar Division, made in 1879, or eight years later draws even a gloomier picture of the condition of these tracts. He says that "the gardens are thickly hemmed in by forests in which the spoors of beasts of prey are neither few nor far between" and that "it is said that large flights of these insects (the Bachche hula) come from the adjoining jungles and on whatever crop they settle, it is destroyed in the same manner as Supari." Again in 1885, the § Deputy Commissioner of the Shimoga District, while recommending the introduction of Kumri, says, "Mr. Bowring's report on the subject is so thoroughly applicable even now, although written 15 years ago....."

* No. 1177, dated 24th March 1879.

§ Report to the Chief Secretary No. 165—111, dated 5th May 1885.

5. The Survey Settlement did in no way tend to better the condition of the raiyats in the Sagar and Nagar malnad. In both these taluks, there was a considerable enhancement over the old Jamabandi,—26 per cent in Sagar, and 15 per cent in Nagar. The dry lands which were held free before were assessed, and "Vala Kumri," which will be presently referred to, was totally put a stop to; and so late as May 1885, *i. e.*, nearly 13 years after the introduction of the Survey Settlement, the Deputy Commissioner of the Shimoga District (Mr. Meiklejohn) remarks "In doing the Jamabandi of the Sagar Taluk this year, I was struck by the large amount of rice waste in the hoblis near the ghats."

Proceedings of the Government of His Highness the Maharaja of Mysore,

6. Since the receipt of the Chief Secretary's docket No. 1510 of 25th December 1885, calling on me, as the Deputy Commissioner of Shimoga, to submit proposals for reintroducing Kumri cultivation in defined localities, I have gone over the western malnad of Sagar and Nagar six times and I can confirm from my own observation what has been over and over again brought to the notice of Government about the depopulated condition of many of the villages, the straitened circumstances of the garden holders, the large amount of damage caused by "Kole roga" and the ravages of "Bachche hula." The great rise in the price of supari within the last ten years and the facilities afforded for the transport of the article, have not had any effect on the state of cultivation. On the other hand, as will be explained in greater detail in my report on supari gardens in the malnad, many gardens have lapsed into jungle and some of our raiyats have migrated to the neighbouring magani of Hanar in Kanara.

In May 1887.
In January 1889
In March 1889.
In December 1889.
In January 1890.
In April 1891.

7. In the Sagar malnad many respectable and formerly well-to-do raiyats have run deeply into debt in trying to maintain their gardens and wet lands at heavy cost and some being unable to stand the strain any longer are abandoning them one by one. There are others that still retain possession of gardens and rice lands, although no longer profitable to them in the hope that Kumri would be soon introduced and the assessment also lowered.

8. I have also inspected several old Kumris. A list of these is appended. There were no valuable timber trees in them and I could only notice such trees as hunal, nerlu, bende, bharangi and other trees of an inferior kind having a thick undergrowth of thorny shrubs.

9. Apart from the regular Kumri conducted by professional kunbis there is another kind of Kumri which is being clandestinely carried on from the commencement in parts of Yedur, in the whole of Mugnad, in parts of Kabnad, Jala and Hosanad and also in the maganis of the Tirthahalli Taluk lying along the ghats. By "Vala Kumri" is meant the practice of setting fire to a small tract of high lying jungle land and sowing ragi in the first rains in the burnt tract and when the ragi has sprouted transplanting it in highlying wet lands called "Makki" and also in dry lands. It is impossible from the nature of the country and from the heaviness of the rainfall on the ghats that dry crops which form the staple food of many of the raiyats can be grown by sowing as is done in the maidan. It would appear that ragi nursery beds cannot be prepared otherwise than on Kumried lands as described above.

10. Considering that dry and "Hakkal" lands were held free by the raiyats before the Survey Settlement and that such lands have now been assessed, there is nothing unreasonable in the raiyats asking that they should have a few kharab lands free for "Vala Kumri" to enable them to grow dry crops on the "Makki" lands for which they now pay assessment. It would appear that about eight guntas of scrub jungle for every acre of wet land would be sufficient for this purpose. The seedlings in one gunta will suffice to plant an acre. Eight guntas are required to keep up a regular rotation, the first gunta kumried being taken up after an interval of seven years.

11. Kumri cultivation would appear to have been revived in 1864 when the dangerous encroachment of jungle was brought to the notice of the authorities. The practice was in force till the Survey Settlement when it was finally put a stop to. I have seen pattas granted for "Vala Kumri" and have some of these pattas with me although the name "Vala Kumri" is not mentioned in such pattas.

12. The subject of Kumri cultivation has been before Government now for over 21 years. The supreme and local Governments have recognised the necessity for Kumri and the latest pronouncement of the Commissioner for Survey and Settlement is also in favor of it, though under certain limitations. In the cold season of 1889-90, the Dewan and the Councillor have personally seen the condition of the western malnad of Sagar and Nagar and I believe they were satisfied that some relief is required in these parts.

13. I forward herewith detailed statements showing where Kumri is necessary. All the jungles specified in them have not been examined, but the statement will be useful as indicating the localities worthy of investigation by the officer deputed to allot tracts for Kumri. Statements showing the Jamabandi under each head and the population of the villages in which Kumri cultivation is recommended are also forwarded.

14. Various suggestions have been made in the papers printed above regarding the conditions under which Kumri should be allowed. On a consideration of the whole question the following appear to be the principal points requiring attention in allotting jungles for Kumri cultivation:—

(1) The villages specified in the list herewith submitted are practically within a distance of six miles from the crest of the ghats, and in extending the benefit of Kumri to all of them the conditions laid down in the Government of India letter No. 121, dated 9th August 1871, published at page 19, will have been observed. The villages are also almost those noticed in their reports by Captain Van Someren, the Superintendent of Survey, and by Mr. Meikeljohn.

Forest, dated 7th February 1908.

(2) The direction that Kumri "clearing be confined to limited areas.....in the immediate neighbourhood of the village sites and gardens" has been shown in the letters of the Superintendent, Revenue Survey, and the Survey Commissioner, to be unenforceable. The Survey Commissioner's recommendation that Kumri should not be allowed "within a perceptible distance," (I would put down a limit of 100 yards) "of gardens," may be observed.

(3) No Kumri should be allowed within 100 yards of streams running as late as December, and on the upper third of the slopes of the hills.

(4) Kumri allotments be confined to old clearings, and when fresh jungles have to be allotted, such portions of them as have the characteristic peculiarities of kans be not interfered with.

(5) Blocks measuring 12 and 18 acres, respectively, be demarcated, and within these sub-numbers be marked off consisting of two and three acres respectively, with such boundary marks as the Survey Department may consider proper.

Survey Commissioner's recommendation, para 8.

(6) In allotting Kumri blocks in the jungles specified in the list, no limit need be placed on the number of blocks to be demarcated on the ground that such numbers are too many for the population, or for the extent under cultivation, the object being to encourage the growth of dry grains, and the settling down of Kumri cultivators.

(7) Each Kumri cultivator or each family may be allowed one block only.

(8) It is not necessary that allotments should be made only to professional Kumri cultivators; others willing to cultivate may be granted lands also.

(9) Only two crops are to be taken off each sub-number in two successive years, after which, it should be allowed to lie fallow; the next sub-number being taken up in the third year, and so on in succession, when after the expiry of ten years, the first sub-numbers will be again available for Kumri.

Survey Commissioner, para 9. Kanara Rules, p. 102, para 1, and Conservator of Forests, para 23.

Commissioner in Mysore, para 10. Survey Commissioner, para 10.

(10) The assessment on each acre to be 1 rupee, the assessment on each sub-number being Rs. 2 or Rs. 3 as the case may be.

(11) Personal inspection to be made annually by the Deputy Commissioner or Jamabandi Officer, with a view to ascertaining that the prescribed limits of the Kumri assignment in each case have not been exceeded.

Kanara Rules, p. 102, para 2.

(12) No restriction need be placed as regards reserved trees after once a block has been demarcated and granted. The Forest Department may, while the demarcation is in progress, cut and remove such trees as they may consider to be of any value.

(13) "Vala Kumri" to be recognized in such localities as it may be found to be existing in now. Eight guntas of scrub may be granted for each acre of high-lying land (Makki), whether classed as wet or dry. The assignment to be enjoyed free by the occupants of Makki land. The allotment of "Vala Kumri" jungle may be left to Amildars under such rules as the Superintendent of Survey may frame.

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. R. 4961-5—Ft. 131-06-6, dated Bangalore, 7th February 1908.

Order thereon.—One of the principal difficulties in the northern and western parts of the Sagar and Nagar Taluks is an insufficient supply of labour due to the tracts being very sparsely inhabited. In former days, some of this demand for labour was supplied by the Mahratta kunbis who used to take up lands temporarily for Kumri cultivation and also work in the areca gardens for wages. As Kumri, the favourite mode of cultivation adopted by the kunbis, was found to be wasteful and caused great injury to forest growth it was prohibited in 1847. Attempts have been made from time to time to revive it in various forms under restrictions which would considerably reduce its baneful effects while serving as an attraction to the only class of labourers that would frequent the tract. The revival of the system in the year 1891 is reported by the Conservator to have led to reckless destruction of wooded areas, owing to the neglect of the safeguards prescribed therein. Colonel Grant, late Survey and Settlement Commissioner, in the report on the revision settlement of the taluk of Sagar has stated that beyond the preparation of statements showing the localities where Kumri could be allowed, the measures for reintroducing Kumri have not been systematically pursued nor has there resulted any increase in the population of the tract. Colonel Grant himself was sceptical about the advantages to be derived by popularising Kumri on any large scale as the inroads of the kunbis would have a prejudicial effect on the forest growth unless duly checked—and it would be very difficult to check them—and as the restrictions themselves would discourage these settlers. He was of opinion that the abolition of the halat together with a reduction of the garden assessment throughout the malnad and of the wet assessment in the backward parts of these taluks would gradually lead to the colonization of these tracts and the cultivation of the vast extent of assessed waste lying therein. The Revenue Commissioner is apparently of a similar opinion. Government also consider that the results of the liberal policy that has been adopted in the malnad parts of the State should be carefully watched, before deciding what other special relief the malnad tracts of the State require. They have, however, no objection to Kumri cultivation being tried as an experimental measure on the limited scale proposed by the Conservator, with the special object of making it serve as an inducement to the cultivation of assessed waste lands and enabling the kunbi workmen themselves to realize the benefits of a more permanent form of cultivation. The Conservator of Forests, Mr. Muthannah, states that he started the working of a similar scheme in the Mandla District of the Central Provinces. He is, therefore, in every way qualified to carry on the experiment here. They are, therefore, pleased to sanction the proposals contained in para 10 of his letter. A sum of Rs. 1,000 will be placed at his disposal for the purpose of the experiment.

2. Government do not consider it necessary to entertain a special shekdar at this stage to be in charge of these gangs. If the experiment succeeds and the cultivation establishes itself on a large scale, the Conservator may submit proposals for the transfer of the control of the experiment to the Revenue authorities. He may, for the present, employ the ordinary forest agency for the purpose. The Revenue Officers will also be asked to co-operate and encourage the settlers.

3. With reference to the suggestions made in para 11 of the Conservator's letter, Government approve of half a dozen good breeding bulls being placed at the disposal of the Deputy Commissioner to be supplied to the larger villages in the malnad for breeding purposes free of cost. The Deputy Commissioner will be requested to arrange for their distribution and custody and will report annually about the results attained.

4. Government are also pleased to direct that hulbanni in the tracts immediately bordering on the ghats in the Sagar and Nagar Taluks be remitted. The Revenue Commissioner is requested to report in which villages such a concession may be allowed and report their number to Government together with the amount of hulbanni that is being realized in them.

5. Government further approve of timber of kinds other than reserved and classified being granted free for house-building and *bona fide* agricultural purposes in these tracts.

Forest, dated 7th February 1908.

6. The Excise Commissioner is requested to expedite the submission of the report called for in this office letter No. 2140, dated the 21st September 1907, regarding the reduction of tree tax on Bagani trees in the northern and western maganis of Sagar and Nagar.

READ—

The Forest Administration Report for the year 1906-07, received with letter No. 3209, dated the 28th September 1907, from the Conservator of Forests in Mysore.

No. R. 5069-108—FT. 80-07-2, DATED BANGALORE, THE 14TH FEBRUARY 1908.

ORDER THEREON.—*Area of Forests.*—During the year under report, the area of State Forests and plantations was increased by 86·8 square miles, by the addition of ten new blocks comprising an area of 55,492 acres; and 11·9 square miles were excluded by the rectification of the boundary of the Devarayadurga and Bukkapatna State Forests. The total area of State Forests at the close of the year besides the ghat, kan and District Forests and Amrut Mahal Kavals, was 2366·97 square miles or 8·05 per cent of the total area of the State as against 7·78 per cent in the previous year. Eighty-seven blocks with an aggregate area of 667 square miles have also been notified for settlement, or as reserved lands.

2. *Selection of areas for reservation.*—Great progress is reported to have been made in the examination and selection of areas for reservation especially in the Shimoga District, where twenty-one blocks covering an area of 231 square miles have been selected. In the Bangalore and Kolar Districts, however, the Conservator states that not only have no new areas been selected by the District Forest Officers (Messrs. Abdul Karim & Bapu Rao) during the year, but that proposals for the reservation of those previously selected have also not been sent up. Government had to notice similar remissness on the part of these District Forest Officers in previous years also. It is observed, however, that the proposals submitted to the Conservator himself were in most cases defective, rendering it necessary to return them to the District Forest Officers, and so no recommendations for the reservation of any of the areas newly selected could be made to Government during the year. Government do not understand the precise manner in which the Conservator considers the attitude of the revenue authorities as impeding the work of Forest Settlement. If, when the preliminary operations connected with the selection of areas are carried on, sufficient information is not collected as to whether their reservation can be allowed consistently with the requirements of cultivation, the necessities of the people, their immemorial rights and privileges, delay in notifying the area is inevitable. Government have recently issued detailed instructions in the matter in Government Order No. R. 3392-402—Ft. 69-06-2, dated 30th November 1907, for the purpose of diminishing these delays as much as possible and collecting all necessary information regarding physical and other local conditions for deciding the expediency of any proposed reservation. Government trust that attention to these instructions will enable the work not only to be carried on with greater speed in future but that it will tend to the selection of only such areas as may be conveniently and usefully reserved.

3. *Forest Settlement.*—The progress made in actual settlement of the areas previously notified has not been very satisfactory. At the beginning of the year under report there were forty-three blocks awaiting settlement and nine blocks were notified for settlement during the year. Of these fifty-two blocks, only ten were settled and constituted State Forests the settlement of ten other blocks was finally reported upon to Government and the settlement of thirty-two other blocks was in different stages of progress. Twenty-one blocks were pending with the Settlement Officer himself. The point whether any other arrangements are necessary for the more speedy disposal of settlement work is receiving the attention of Government separately.

4. *Forest Survey.*—In the work of Forest survey there has been sufficient progress. The total area surveyed during the year was 618·2 square miles, including overlaps and enclosures, of which 462·13 square miles represent the actual area of State Forests. A forest map for the whole State was completed and drawn up on the scale of 1″ =8 miles and maps of eleven forests in Mysore, Bangalore and Tumkur Districts were also drawn. The total area surveyed since the special forest Survey party was appointed is 2,209 square miles and the area of State Forests still remaining to be surveyed, exclusive of new forests to be hereafter constituted, is only 239 square miles.

5. *Boundary lines.*—The work of demarcation or widening of boundary lines which was carried on at a cost of Rs. 11,808 is said to be almost complete in the case of the old forests. Government trust that by paying due attention to the demarcation of boundary lines immediately after settlement is completed in the case of the newly constituted forests when the lines are clearly visible, and to their maintenance afterwards, the necessity for such extensive operations will greatly diminish in future and the expenditure thereon be accordingly reduced.

6. *Working plans.*—The preparation of working plans for the teak forests of the Heggaddevankote Taluk is reported to have been completed, a special officer having been appointed for the purpose. The submission of the draft report and of the working plan for the casuarina-cum-sandal plantations of the Tumkur District, which is also stated to have been completed, is awaited by the Government. Government note that provisional working plans and annual plans for operations are reported to have been strictly adhered to in all cases, except where scarcity of labour and other unforeseen causes rendered it difficult to conduct the operations in accordance with their provisions. Government, however, desire that this should not delay the preparation of the regular working plans which are essential for the satisfactory working of important forests. The Conservator is requested to take due notice of the deviations from the felling rules which have defeated the object of having a working plan for the Kukkavada-Ubrani Forest.

7. *Communications.*—Thirty-two miles of cart-roads were opened and seventy-five miles were repaired at a cost of Rs. 5,698 and Rs. 4,756, respectively. It is noted that with the construction of the Hondrabal-Bedaguli road in the Heggaddevankote Taluk and the Shimoga-Hanagere road in the Shimoga District, communications have been opened to all important forests in the State and that in future it will be necessary to make only feeders to those roads. Government trust that this will also be pushed forward with vigour so that every facility for working the forests is provided.

8. *Buildings.*—A sum of Rs. 16,585 was spent on the construction of new buildings and Rs. 2,611 on the repair of old ones. A sum of Rs. 348 was also expended on miscellaneous works such as sinking wells, repairing tanks, etc.

9 *Offences.*—Government are glad to observe that the results in cases instituted before Magistrates were more satisfactory than in previous years, the percentage of convictions being 81·2 as against 62·5 in the previous year. The Conservator is requested to report why he did not move to have an application for revision filed in the case of sandal theft from the Shimoga District, referred to by him, where the accused was fined Rs. 10 when the value of a part of the sandal seized is said to have been Rs. 125, if he considered the sentence inadequate. A copy of the judgment in the case may be sent up for perusal of Government.

10. Government regret to observe the large number of cases of injury to sandal trees pending disposal. There were 213 cases pending at the commencement of the year, and 164 were reported during the year. Only 110 were disposed of, leaving 267 pending. Of those pending, 102 are from the Hassan District, ninety-six from Mysore, and thirty-three from Bangalore. It is not stated how many of these have been pending for more than a year. The results of the action taken by the Conservator to ascertain the cause of the delay should be reported to Government, as also the names of any officers, who may have unnecessarily delayed the disposal of the cases. It is not understood what difficulty there is in the disposal of these cases, as a special liability is imposed by Section 73 of the Forest Regulation, which greatly simplifies the nature of the investigation required.

11. *Fire protection.*—2154·2 square miles were successfully protected against fire out of a total of 2185·7 square miles, the failures amounting to 31·5 square miles or 1·4 per cent against 6·0 per cent in the previous year. These good results are to some extent due to the favourable conditions of the year, in which the rains began early and ceased late. In Mysore, which hitherto used to fare the worst, the success has been remarkable and it is probable that the system of enlisting, by the offer of rewards, the co-operation of the wild tribes who inhabit the forests to prevent fires, has had some effect in producing these results. In Shimoga, where the forests were exposed to special danger owing to the operations of the Manganese Companies near

Forest, dated 14th February 1908.

them, 8 square miles were burnt, and no explanation has been offered for the large extent of failure (12 square miles) in the Chitaldrug District. In the Shimoga District, to avoid more disastrous consequences from the acts of those engaged in the mining industry, it behoves the Conservator to take special steps to have the forests to which they have access watched carefully.

12. The total realizations under "grazing and fodder grass" amounted to Rs. 69,233 against Rs. 48,261 in the previous year, the large increase being due partly to the collection of the arrears of previous years and partly to the higher acreage rates obtained from the British Military authorities for plantations leased to them. The amount of fines recovered on cattle impounded was Rs. 1,404.

13. *Reproduction.*—Natural reproduction was greatly affected by the continued droughts of previous years and even artificial reproduction did not succeed greatly. Government are, however, glad that systematic efforts are made to prevent any deficiency occurring in the supplies of the future by extensive cultural operations. Government also consider that greater recourse may be usefully had to the facilities provided by the rules contained in Appendix H of the Land Revenue Rules for planting of timber and fuel trees in suitable places and Government desire that Revenue Officers should interest themselves in the matter and induce people to take advantage of the rules.

14. *Spike disease.*—Government are glad to find that spike disease has been practically confined to the localities in which it existed last year. It is reported to be most severe in the Hunsur Range where it first appeared and where 120,691 trees have been uprooted to prevent the further spread of the disease. It is hoped that the attention which the disease has received from the publication of the information collected on the subject and the offer of a reward of Rs. 10,000 will lead to the discovery of some effective remedy at an early date and render unnecessary the destruction of such a large number of trees annually to prevent the spread of the disease.

15. *Timber.*—There has been a noticeable diminution in the quantity of timber sold during the year, which was only 4,79,622 cubic feet as against 6,06,343 cubic feet in the previous year. The realizations were therefore only Rs. 3,23,755 as compared with Rs. 3,78,377 in the previous year. These results, it is said, are due to certain abnormal causes during the year, as there was no decrease in the demand, even inferior varieties of timber having fetched good prices, nor was there any deficiency of supply in the forests. The working season was short as the rains lasted for a great part of the year. In the Shimoga and the Kadur Districts, owing to the competition of the several companies engaged in the extraction of manganese, it was difficult for the Forest Department to secure labour and transport, and thus a portion of the timber which had been felled could not be removed from the forests. The railway too was not able to provide a sufficient number of trucks as they were required for the manganese traffic. The Secretary for Railways will take the necessary action in the matter of the provision of a sufficient number of trucks required for the transport of the produce.

16. *Minor forest produce.*—The exploitation of firewood and minor forest produce departmentally is being curtailed and private agency is being gradually substituted for it. During the year under report departmental operations in the case of minor forest produce are stated to have been confined only to places where good prices were not secured for leases. The system of issuing licenses to middle men for collecting and disposing of timber and other produce, which worked well in the Mysore District during the past two years, was extended to all the districts tentatively for two years.

17. *Sandalwood.*—The extraction of sandalwood was confined only to fully dead and fallen trees and to old stumps and roots. The total quantity collected was 2480 tons, 10 cwts against 4302 tons, 9 cwts in the previous year. The decrease was due to the collection being restricted on account of the large balance of 2593 tons of the previous year on hand. Out of the available stock of 5074 tons, 4 cwts of rough wood 2714 tons, 13 cwts were worked out which yielded 2250 tons, 9 cwts of good and superior wood and 192 tons, 16 cwts of white chips, which were sold for Rs. 12,84,985 and Rs. 576, respectively. The average rate secured per ton was

Rs. 539 against Rs. 507 in the previous year. The net receipts from the sale of sandalwood after deducting the expenditure of Rs. 2,46,452 for cost of extraction and preparation, proportionate cost of buildings, roads, tools, demarcation, plantation, etc., and proportionate charges on account of salary and travelling allowances of establishments, and contingencies amounted to Rs. 10,39,108. The total receipts as well as the average rate of Rs. 539 secured per ton during the year are the highest on record and were due to keen competition caused by the increase in demand in the European market.

18. *Financial results.*—The financial result of the operations was a net revenue of Rs. 12,73,528 as against Rs. 13,32,410 in the previous year. The gross receipts and the expenditure amounted, respectively, to Rs. 19,17,830 and Rs. 6,60,640. As compared with the actual receipts of the previous year, *viz.*, Rs. 20,07,514, the revenue realized during the year fell short by Rs. 89,684 and the decrease is chiefly due as observed above, to the comparatively smaller output of timber, bamboos and minor forest produce and the smaller quantity offered for sale in the market. The ratio of charges to receipts was 33·6 per cent and the percentage of surplus was 66·4.

19. The working of the Department during the year under Mr. Muthannah's management has been satisfactory and has shown steady progress, and Government are glad to record their appreciation of the same.

Letter No. 200[2], dated 21st August 1907, from the Conservator of Forests in Mysore, submitting the Inspection Report of the Mysore District Forest Office.

No. R. 5212-22—Ft. 60-07-2, DATED BANGALORE, 17TH FEBRUARY 1908.

ORDER THEREON.—Recorded.

2. *Para 1 of the Report.*—The Conservator is requested to submit separate proposals for the construction of a building for the District Forest Office in consultation with the local Officers and the Chief Engineer.

3. *Para 2 of the Report.*—The Settlement Records of Narayandurga Forest, Arabitittu, and Mudibetta Forests should be sent to the District Office for preservation as directed in Government Order No. R. 2001-9—Ft. 152-05-11, dated the 14th August 1906.

4. *Paras 12 & 33 of the Report.*—Government regret to observe that heavy outstandings are allowed to remain unadjusted for a long time. Three items which have been due for more than 6, 7 and 9 years have been noted to be remitted. No reason is assigned why necessary action has not been taken to give effect to this remark. The amount due by Aiyasamy Mudaliar should be recovered early. Government deem it absolutely necessary that the adjustment of all items should, as far as possible, be effected within the year to which they relate, as by delay it very often becomes impossible to recover them and to enforce the responsibility of those who may be liable for the same. The Conservator is therefore requested to submit a report as to the action taken by him in the matter of the recovery of the outstandings. The Conservator himself appears to have allowed due time for adjustment. Has this been effected?

5. *Para 17 of the Report.*—The Conservator is requested to see that the stock-taking reports are submitted in due time and that they are checked carefully and found correct.

6. *Para 18 of the Report.*—The report called for in para 5 of Government Order No. R. 5011-9—Ft. 39-06-3, dated the 14th November 1906, is still due. The Conservator is requested to state what action, if any, he has taken to give effect to the above order.

7. *Para 46 of the Report.*—The Conservator is requested to take early steps for tracing or replacing the missing service registers and for posting the others up to date.

8. *Para 51 of the Report.*—The attention of the Conservator is invited to para 9 of Government Order No. R. 5011-9—Ft. 39-06-3, dated the 14th November 1906, and to observe that the name of the official referred to in para 51 of the report ought to have been mentioned.

9. The defects noticed by the Conservator in the maintenance of registers in paras 4, 5, 6, 7, 11, 20 and 22 of the report should be rectified as early as possible.

The following papers relating to the reservation of the Garudangiri block in the Arsikere and Kadur Taluks:—

(1) Letter No. 4527, dated the 12th December 1905, from the Conservator of Forests in Mysore, submitting for orders the papers relating to the reservation of the block under Section 4 of the Forest Regulation.

(2) Letter No. 6665, dated the 6th March 1907, from the same officer, submitting the opinions of the Deputy Commissioners of Hassan and Kadur Districts in regard to the proposed reservation.

(3) Letter No. 6275, dated the 13th December 1907, from the Revenue Commissioner in Mysore, submitting the opinions of the Deputy Commissioners of Kadur and Hassan Districts with the reports of the Sub-Divisional Officers concerned in regard to the proposed reservation.

No. R. 5637-40—Ft. 122-05-6, dated Bangalore, 29th February 1908.

Order thereon.—The proposed block belongs to two Districts the Deputy Commissioners of both of which are opposed to its reservation as a State Forest. It consists of rocky hills scantily covered with vegetation and is situated in the midst of an arid treeless region. The object of the reservation is said to be the preservation of forest growth from indiscriminate felling and goat browsing and its improvement by cultural operations. The Revenue Commissioner is agreeable to the reservation provided a liberal allowance is made for grazing rights. The Conservator of Forests states that in the face of the strong objections raised by the Deputy Commissioners, he is not prepared to press the proposal, but that the object aimed at could be attained by constituting the area as a reserved land under Section 35 of the Forest Regulation.

2. It is observed that nearly all the assessed lands are occupied and special facilities for grazing are necessary in the tract. Government therefore consider that the constitution of the area as a State Forest is undesirable but that it may be declared a reserved land under Section 35 (iii) of the Forest Regulation. A notification as hereunder will be published in the Gazette.

READ—

Letter No. 8646, dated the 27th March 1906, from the Revenue Commissioner in Mysore, forwarding for orders letter No. 74, dated the 11th August 1905, from the Deputy Commissioner of the Kadur District, regarding the applicability of Notification No. 8540—Ft. 64-03, dated the 11th March 1905, to future grants of lands for coffee cultivation.

2. Note dated the 4th September 1906 by the Conservator of Forests in Mysore, recording his opinion on the above.

3. Note dated the 26th September 1906 by the Revenue Commissioner in Mysore.

4. Representative Assembly Subject No. 80 of 1907 regarding the reduction of upset price on coffee lands.

No. R. 5642-52—Ft. 183-05-2, DATED BANGALORE, 29TH FEBRUARY 1908.

ORDER THEREON.—The letter of the Revenue Commissioner read above raises the following questions:—

(1) What is the scope of Government Notification No. R. 8540—Ft. 64-03-9, dated the 11th March 1905, specifying the kinds of trees which are to be regarded as reserved, when lands are taken up for coffee cultivation, *i. e.*, what are the cases in which it is intended to apply—whether it applies merely in the case of future grants or applies also to lands already granted, in which the grantees have not acquired a full right to all the trees except sandal; and

(2) What are the considerations on which the upset price on such lands is to be calculated.

2. The first set of rules containing the terms on which coffee lands already granted were to be confirmed and the conditions applicable to such grants in future were issued with Notification No. 242, dated the 24th March 1885. Para 5 of the notification directs that six kinds of trees specified therein, besides sandalwood, are to be treated as reserved to Government in the case of lands which had already been granted for coffee cultivation, and para 9 lays down that when any coffee lands are applied for thereafter they will ordinarily be sold publicly subject to an upset price, which would include survey expenses and the value of the reserved trees with the exception of the sandalwood. This upset price was, after some consideration, fixed at different rates for different localities by Government Order No. 1860-71, dated the 10th March 1887. But subsequently these differences were abolished and a uniform rate of Rs. 10 was introduced for all lands wherever situate, which were to be granted for coffee cultivation. These rules, as modified from time to time, have been finally embodied in the rules contained in Appendix E to the Land Revenue Rules of 1890, which regulate the grant of lands for coffee cultivation at present.

3. In 1905, however, the question of increasing the kinds of trees to be reserved to Government on lands given out for coffee cultivation arose on a reference from the Conservator of Forests, who was of opinion that the exclusion of all but sandal trees from the list of trees reserved to Government often led to applications being made for lands chiefly with the object of utilizing the timber trees contained therein and that the upset price which was levied did not in the majority of cases fairly represent the value of the timber trees acquired by virtue of the grant. Thereupon in Government Order No. 8529-39—Ft. 64-03, dated the 11th March 1905, fifteen kinds of trees besides sandalwood were classed as reserved trees. The provisions of this order were intended to operate only in the case of future grants of land for coffee cultivation, but Notification No. 8540, dated the 11th March 1905, did not correctly represent this intention of Government.

4. The question now submitted for the orders of Government is how far Rule 6, Appendix E to the Land Revenue Rules of 1890, which fixes an upset price of Rs. 10 per acre and conveys the right to all trees excepting sandal applies to future grants of land for coffee cultivation, as it has not been repealed by Notification No. 8540, dated the 11th March 1905; and whether it is necessary to modify it. The Deputy Commissioner of the Kadur District also states that in view of the increase in the kinds of trees reserved to Government in the case of future grants an upset price of Rs. 10 is too high, and that therefore it may be made to consist of a fixed sum for survey charges and a variable price to be calculated according to the value of the trees on the land applied for.

Forest, dated 29th February 1908.

5. After further consideration Government do not feel satisfied that it is necessary to reserve any other trees besides sandal or make the upset price vary according to the number and kinds of trees contained in the land applied for. The question whether Government right to timber should be conveyed to grantees of coffee lands or reserved to Government was fully considered in Government Order Camp No. 1860-71, dated the 10th March 1887. The conclusion then arrived at was that both the reservation to Government of several kinds of trees and the valuation of upset price on each land applied for after an enumeration of the trees on the land were undesirable and that the best system was to prescribe a rate of upset price that would include both survey expenses and Government timber rights except in sandal. This principle has been adopted in the rules contained in Appendix E to the Land Revenue Rules of 1890 and is carried a little further as it abolishes the different rates of upset price prescribed for different localities in the rules of 1887. The only objection to the procedure prescribed therein is that a fixed upset price may lead to the grant of lands containing valuable timber which have not been applied for for *bonâ-fide* purposes of coffee cultivation. It is always open to the Forest Department to have lands containing any valuable growth of timber reserved and prevent the grant of such lands. Besides, as these lands are generally sold by auction, there is an additional safe guard against the land being acquired for any extremely low price. Government are also of opinion that the suggestion to fix a certain amount for survey expenses and make a valuation of timber in each case would involve a considerable amount of labor, and cause delay in the disposal of applications. The upset price which has been based on the averages derived from the condition of good and bad lands has not been found excessive or in any way to tend to discourage applications for coffee cultivation. Further reduction is not therefore necessary.

6. For the reasons stated above, Government are pleased to cancel Government Order No. 8529-39—Ft. 64-03-9, dated the 11th March 1905. and Notifications No. 8540, dated the 11th March 1905, and No. R. 63—Ft. 184-04, dated the 5th July 1905, and to direct that questions arising in connection with grants of land for coffee cultivation be disposed of according to the provisions of Appendix E to the Land Revenue Rules of 1890.

7. The Revenue Commissioner will inform the Representative Assembly member who mooted Subject No. 80 of 1907 of the above order.

I have the honor to submit the records of enquiry relating to the Inamdar's claim to the Excise revenue from toddy of Jodi Ahobala Agrahar village with its dakhli Chinnavarnahalli in the Tumkur Taluk, together with a copy of the Inam Settlement Register of the village.

2. The sannad dated 1826, granted by His late Highness Sri Krishnaraja Wadayar Bahadur, orders the release of the Jodi village of Ahobala Agrahar with its dakhli Chinnavarnahalli from the attachment made in consequence of the complaint preferred by the shanbhog of the village and directs the continuance of the village to the Inamdars on payment of a Jodi of five pagodas as theretofore. In the preamble of this sannad it is mentioned that the Inamdars allege that they were enjoying the villages on Sarvamanyam tenure but it was subsequently subjected to a Jodi of five pagodas by Dewan Purnaiya on account of "Shendi Khana." The subsequent ratification of the Inam on a Jodi of five pagodas acquiesces in the view that the five pagodas levied is on account of "Shendi Khana."

3. In column 20 of the Inam Settlement Register of enquiry, the Special Assistant Mr. Gopaliah has recorded "The sayer and abkari are reserved, the Inamdars can derive toddy from their date trees by renting to the Government contractor." The toddy is one of the items of revenue mentioned in the statement of annual collection shown in the Register. The investigating officer has recorded that toddy is one of the items granted to the Inamdar in the Quit-rent register of the village that the village is entered in the list of villages entitled to the toddy revenue in the Tumkur District furnished by the Inam Department. In these circumstances, the remarks of the Special Assistant which are confirmed by the Inam Superintendent can only mean that the Inamdars can derive the Excise revenue from toddy of the village only through the Government contractor.

4. Kannada Hukum No. 135 of 1857-58 from the Amildar of Koratagere to the shekdar and patel of the Hobli, directing that no interference should be allowed in the Inamdars' right to bring toddy from Inam Bala Basavanhalli grove and sell the same in Chinnavarnahalli toddy shop and the four gutha chits on the file of records show that the Inamdrs were in the enjoyment of rental of a toddy shop in Chinnavarnahalli from 1855 to 1888.

5. In these circumstances, I beg to submit that I concur in the opinion recorded by the Deputy Commissioner that the Inamdar is entitled to the Excise revenue from toddy of the village. There is at present no toddy shop in the village, but there are a few date trees. The case, therefore, falls under Rules 2, 5 and 13 of Government Proceedings No. 2074-82 - R. F. 166-92, dated the 2nd August 1901. When submitting the refund bill on receipt of Government Orders, the amount payable to the Inamdar will be verified and checked.

No. FL. 4004-6—S. R. 38-07-2, DATED BANGALORE, THE 12TH FEBRUARY 1908.

ORDER THEREON.—The claim to toddy Excise revenue is chiefly based on the sannad of 1826, confirming the village to the Inamdars on payment of a Jodi of five pagodas. In the preamble of this sannad it is stated that a Jodi was imposed on this village, Sarvamanyam as it was, because of the Inamdar's enjoyment of the shendi revenue of the village.

The genuineness of the sannad was accepted at the Inam Settlement, and the village was confirmed by the Inam Commissioner on the 28th March 1870, without mention of any reservations to toddy revenue to Government. The Inam Register based thereon shows that toddy was conceded to the Inamdar and that a title-deed to this effect was issued on 1st April 1870.

2. With reference to the remark made by the Special Assistant Mr. Gopaliah in the Inam enquiry register reserving the sayer and abkari alluded to by the Excise Commissioner in para 3 of his letter, Government observe that the remark is undated, that it does not fit in with the sequence of entries in the register and

Financial (Separate Revenue), dated 12th February 1908.

has to be rejected, inasmuch as the reservation by the Special Assistant is inconsistent with the Inam Commissioner's final order dated the 28th March 1870, and with the title-deed issued in accordance with that order.

Under these circumstances, concurring with the investigating officer, the Deputy Commissioner and the Excise Commissioner, Government are of opinion that the Inamdar should be held entitled to toddy Excise revenue.

There is no shop in the village which has only date trees. The Inamdar does not appear to have derived any income from toddy until recently and the case therefore falls under Rule 13 of Government Order No. 2074-83—R. F. 166-92, dated the 2nd August 1901.

The Report on the working of the Excise Department for the year 1906-07 received with the Excise Commissioner's letter No. 2900, dated the 14th December 1907.

No. FL. 4320-9—S. R. 94-07-3, DATED BANGALORE, 29TH FEBRUARY 1908.

ORDER THEREON.—The Report for 1906-07 was received from the Excise Commissioner on the due date and Government have read it with interest. During the whole of the year, the Department continued to be under the control of Mr. P. N. Purnaiya.

2. *Administrative changes.*—As a result of the recommendations of the Retrenchment Committee, which examined the revenue and expenditure of the Department, certain administrative measures were sanctioned about the close of the year under review, to take effect from the commencement of the year 1907-08. The chief of them were:—the abolition of the office of the Deputy Excise Commissioner, the continuance of the arrangements already sanctioned, according to which, each district was constituted into a separate Excise Division, the raising of the tree-tax on date and bagani trees, and the merging of local cess in the main items of Revenue.

The Excise Law was also slightly amended to authorize Excise officers to admit persons arrested to bail.

3. *Arrack and other Country Spirits (Manufacture).*—The contract with Messrs. Arbuthnot & Co., which commenced in July 1902, terminated on the 30th June 1907, and the monopoly of manufacture and supply of arrack and other country spirits has since been taken up by a local firm for a period of three years, ending with June 1910.

4. *Transport.*—The transport of arrack and other liquors from the Distillery to the several Bonded Depôts continued to be carried on during the year under review by private agency as heretofore but it has been decided, in view to greater economy and administrative efficiency, to slightly modify the present system by replacing the Bonded Depôts which are under the control of the contractors, by warehouses under the direct charge of the Government officers. The system will be introduced as soon as the necessary arrangements are completed.

5. *Consumption.*—The consumption of arrack which, owing to adverse conditions of the season, had gone down in 1905-06, has, with the restoration of the normal conditions, again increased during the year under review, the increase of consumption being 12·3 per cent over that of last year. The total consumption is, however, much below what it was prior to the enhancement of still-head duty from Rs. 4 to 4-12-0 per gallon in 1897-98 and under present conditions the liquor appears to be adequately taxed.

It is observed that the consumption of liquor of proof strength, intended for use in the Depôts to bring up the strength of arrack to 20 U. P., should it be found weaker, has largely increased during the year under review from 454 gallons in 1905-06 to 1,230 gallons, and a report of the result of the Excise Commissioner's enquiry into the causes of this sudden increase is awaited.

Government note that the actual consumption of jaggory arrack in 1906-07 amounted to 2,553 gallons against 781 in the previous year and that this kind of liquor is reported to be gaining in popular favor throughout the Province.

6. *Foreign Liquors.*—The consumption of foreign malt liquors has perceptibly increased during the year under review. There has been on the other hand slight decreases in the quantity of superior foreign liquors and of local double-distilled spirits consumed, and a considerable decrease in the consumption of locally manufactured beer. The Excise Commissioner should have explained the cause of this decrease.

7. *Toddy.*—During 1906-07 there was an increase of 8 per cent in the rental of toddy shops with a falling off of 5 per cent in the number of trees licensed for tapping. It has to be noted that ever since the introduction of the Tree Tapping License system into the State, there have been except in one or two years a

gradual rise in the rental of shops and a fall in the tree-tax. Whether the explanation of this circumstance, as given by Mr. Purnaiya in para 28 of his Administration Report for 1903-04, *viz.*, that the sales in Mysore attract more competition and that as the renters of shops get more and more correct knowledge of the capabilities of trees and of the demands of shops they only take up the minimum number of trees required, is borne out by the experience of the succeeding years is a point for consideration and Government will be glad to learn the Excise Commissioner's views on the subject.

The increased revenue from rental in the year under review is attributed partly to the growing appreciation of the separate shop system and partly to the prospect of a greater demand for toddy than for arrack, anticipated at the time of sales and the fall in the number of trees licensed to be tapped is said to have been due to the weather conditions of the year, rains and cold having generally prevailed.

Government note with some concern the observation of the Excise Commissioner that the increase in the number of trees taken from the groves of the Madras Presidency in spite of an enhancement of tree-tax by the Madras Government from Rs. 1-8 to Rs. 2 is significant of a probable deterioration of our groves and they note that the resuscitation of the exhausted groves and the better conservation of those under requisition are engaging the consideration of the Excise Commissioner.

As regards the inter-tapping of toddy trees on the frontier between Mysore and the Bombay Presidency, the Excise Commissioner's report already called for is awaited.

8. *Ganja.*—The attempts made for the local manufacture and supply of ganja have not been so far satisfactory and the subject requires the special attention of the Excise Commissioner.

9. *Opium.*—Considering the almost permanent rise in the cost price of opium received from Madras and in view also to bring the vend prices of opium in Mysore as near as possible to those prevailing in the frontier tracts of the Madras Presidency, Government decided to raise, with effect from 1st July 1907, the issue price to licensed vendors from Rs. 31-4-0 to Rs. 37-8-0 a seer and the rate of retail vend from Rs. 37-8-0 to Rs. 45-0-0 per seer of 80 tolas.

10. *Incidents of taxation.*—The incidents of taxation per head of population under country spirits, toddy and drugs has been Re. 0-12-5 against Re. 0-12-0 in the previous year, the highest incidence being Rs. 1-4-3 in the Kolar Gold Fields and the lowest Re. 0-7-3 in the Hassan District.

11. *Finance.*—Financially the year under review has been the most successful on record.

The total demand under all heads of Excise revenue including local cess and rent amounted to Rs. 42,76,045, showing an increase of Rs. 2,24,481 over the revenue of the previous year and the collection was Rs. 41,87,915 or 97·9 per cent of the demand.

The report contains detailed information regarding the nature of the large outstanding arrears of Rs. 2,80,489 at the close of the year, and Government note with regret that the progress of collection of the arrears of previous years is slow, particularly in one taluk of the Bangalore District, one taluk of the Kolar District, six taluks of the Mysore District, one taluk of the Kadur District and two taluks of the Chitaldrug District. It is hoped that the Deputy Commissioners concerned will adopt effective measures for the early adjustment of these arrears, of which about Rs. 1,15,000 are reported to relate to the period prior to the 30th June 1902.

12. *Measures for the protection of revenue.*—The number of offences against the Excise Laws reported during the year 1906-07 was slightly less than during the year previous and compared with that year there has been some improvement in the disposal of cases, the percentage having risen from 65 to 76. Government are glad to note that smuggling has appreciably decreased and that several cases of illicit distillation were detected and prosecuted to conviction, chiefly in the Shimoga District.

Financial (Separate Revenue), dated 29th February 1908.

13. *Inspection.*—Judging from the number of days the District Excise Officers have toured, there has been some improvement in the matter of inspection.

14. At the close of the year under review Mr. P. N. Purnaiya, Excise Commissioner, and Mr. W. V. Davy, Deputy Excise Commissioner, retired from the service. Mr. Purnaiya was appointed Excise Commissioner in February 1896, and remained at the head of the Department for over 11 years. During this period the Department was reorganized on its present basis, and the separate shop system for the sale of arrack and the tree-tax system for toddy were introduced throughout the State. The Excise revenue which was 36 lakhs in 1896, rose to 42¾ lakhs in 1906-07. Mr. Davy was in the Department from 1893 and took a large share in its reorganization and development. In reviewing the last report of the work of these officers, Government desire to place on record their appreciation of the valuable services rendered by them during the long period of their connection with the Department.

Letter No. 3110—Loan 402 of 10th December 1907, from the Comptroller, Mysore Government, submitting a revised statement showing the balances of loan to Agricultural Banks outstanding at the end of the year 1906-07 as per final accounts for the year together with his review thereon:—

LOAN TO AGRICULTURAL BANKS.

Bangalore District.—At the end of the year 1906-07 a sum of Rs. 1,44,403-3-4 was due from the eleven banks in this District on account of principal towards a total loan of Rs. 1,97,504 granted to them between the years 1896-98. Out of this, Rs. 57,355-14-9 were collected up to the end of the year, leaving a balance of Rs. 87,047-4-7 still to be repaid. In addition to the above a sum of Rs. 3,205-10-6 was also due from the banks on account of interest.

Two of the above banks, *viz.*, those at Vadigenahalli and Tavarekere, were ordered to be wound up, and the balances outstanding against them at the end of the last year were Rs. 4,792-1-3 and Rs. 5,174-0-0, respectively, on account of the loan and Rs. 762-4-3 and Rs. 84-0-3, respectively, on account of interest. The Deputy Commissioner who was requested to intimate to this office the action taken for recovering the dues, reports in regard to the bank at Vadigenahalli that strict orders have been issued for the early recovery of the arrears. No report has yet been received in regard to the other banks. In the case of the Ardesahalli Bank, Government have since ordered that the whole of the amount due, *viz.*, Rs. 4,009-0-1, towards principal and Rs. 182-10-11 towards interest should at once be withdrawn. *Vide* Government Order No. Fl. 1400-3—B. 20-07-2, dated 23rd September 1907. The Deputy Commissioner has since intimated that the Amildar has been directed to report the progress made in this connection.

Vide Government Order No. Fl 3967-9—B 31-04-6, dated 25th November 1905
Government Order No. Fl. 1673-5—B. 2 06-4, dated 24th August 1906.

Kolar District.—Out of a loan of Rs. 53,000 granted to the four banks in this District in 1897-98, Rs. 37,900 were outstanding in 1906-07, of which Rs. 20,356-1-7 were realized to the end of the last year, leaving a balance of Rs. 17,543-14-5 still to be paid. The amount of interest due was Rs. 16,848-0-9, of which Rs. 3,378-3-4 was still in arrears. These arrears of loan and interest are due from only three banks, *viz.*, the Sabbanahalli, Thippanahalli and Muduvatti Banks which have all been ordered to be wound up. The Deputy Commissioner reports that coercive measures are being adopted for the recovery of the balances of loan and interest due by the first two and that the members of the Muduvatti Bank have promised to pay up the amount due by that bank in eight years commencing from June 1907. But the instalment due was not paid and the Deputy Commissioner intimates that he has instructed the Amildar to recover the amount early. The Honagenahalli Bank has repaid all the instalments due with interest.

Government Order No. 82-4—B. 32-04-8, dated 5th July 1905.
Government Order No. 7526-8—R. F. 27-97, dated 6th May 1905.

Tumkur District.—Out of a loan of Rs. 99,500 sanctioned for the eleven banks of this District, Rs. 68,770 were outstanding in 1906-07, of which Rs. 53,315-5-4 were paid up to the end of that year. The balance of loan and interest outstanding at the end of that year was Rs. 15,554-10-8 (exclusive of the sum of Rs. 100 paid by the Haldodderi Bank in excess of the instalment due) and Rs. 1040-10-3 respectively. Except in the case of the Manchagalkoppa, Kyatsandra, Kadagathur, Chiknayakanhalli and Rampura Banks which owe Rs. 2,310, 2,225, 2,915, 3,750 and 1,615 respectively on account of the loan and Rs. 155, 151, 148, 280 and 132 respectively on account of interest, the balances due from the other banks in the

District are small and appears to be easily recoverable The Deputy Commissioner has been asked to take steps to recover these early. The members have promised to repay the balance due towards loan and towards interest due from the Kyatsandra Bank, *viz*, Rs. 2,225 and Rs. 151-7-3 by the end of December 1907, and the Government have been pleased to grant them this time in their Order No 507-9—B. 8-06-10, dated 2nd August 1907

Shimoga District —Out of the total amount of Rs 1,20,100 advanced to the banks in this District, Rs. 83,466-10-8 were outstanding in 1906-07, of which Rs 59,742-3-3 were repaid to the end of that year leaving a balance of Rs 30,721-7-10 still in arrears, exclusive of Rs. 7,000-0-5 paid by some of the banks in excess of the instalments due by them There is also an outstanding balance of Rs 5,595-2-7 on account of interest Out of the above, the banks at Issur, Churchgundi, Haromachadi, Somalapur, Nallur, Honnali, Santebennur, Gogga, Hitla and Salur account for Rs. 25,810-15-10 and Rs 4,952-4-6 respectively, and these amounts were ordered to be recovered before the end of December 1906. Nothing however has been received up to date from any of these banks except the small sum of Rs 3,171-10 0 paid by a few of them towards the arrears of instalments due and another of Rs. 3,309-10-11 which it is reported has been recovered from the Honnali Bank by sale of the lands hypothecated to Government The banks at Nyamti, Vitagondakere, Siralkoppa, Archada, Kolgunsi and Ganesankuni have almost repaid in full the loans granted to them by paying some of the instalments in advance

Government Order No Fl 918 9—B 5 06 2, dated 23rd July 1906
Government Order No 4524 5—B 26-04 12, dated 17th January 1906

Chitaldrug District —Of the three banks Talya, Malebennur and Mullapur in this District the loan given to the Malebennur Bank has been repaid though there is yet a sum of Rs. 93-7-2 due by it on account of interest The bank at Talya which still owes Rs. 4,377 on account of the loan and Rs. 335-5 2 on account of interest has been ordered to be wound and the Deputy Commissioner reported in July 1907 that coercive measures would be taken for recovering the amount due The Mallapur Bank has paid only Rs 1,960 against the instalment of Rs 4,900 due by it The balance still due by the bank on account of loan and interest amounts to Rs. 2,940 and Rs. 263-7-3 respectively

Government Order No. Fl 2765 8—B 26-06 2 dated 10th October 1906.

Mysore District —The total amount of loan granted to the ten banks in this District was Rs. 2,13,000, of which Rs 1,10, 666-10-8 were outstanding in 1906-07 Rs 79,291-2-1 were paid up to the end of 1906-07, leaving a balance of Rs. 36,563-0-9 still to be recovered excluding Rs. 5,187-8-2 paid by the Palhalli Bank in excess of the instalment due by it. Interest amounting to Rs 61,972-13-0 were also recovered to the end of 1906-07, and the arrears on this account at the end of the last official year amounted to Rs. 7,087-9-3 The banks at Mandya, French Rocks, Satnur, Saragur and Chamrajnagar, which were ordered to be wound up, account for Rs. 20,193-9-8 and Rs. 6,244-8-4. The Saragur Bank has since paid up nearly the whole of the arrears due, and the Chamrajnagar Bank has been ordered to be revived pending receipt of further report in the matter This revival is said to have been effected under the authority of Government Order No. Fl 9025-26—332-06 of the 7th June, but the Government Order quoted has not been received in this office Except in the case of the above two banks, no action appears to have been taken to recover these balances

Kadur District.—This two Banks of Ardikoppa and Sakrepatna which owed in 1906-07 Rs.10,648-5-4 and Rs. 5,650 respectively on account of the arrears of instalments and Rs.1,565--2-4, Rs. 1,200-15-4 respectively on account of interest, were ordered to be wound up and the arrears due by them were directed to be recovered from the members individually in ten annual instalments in the case of the Sakrepatna Bank and in fifteen instalments in the case of the Ardikoppa Bank. The first instalment which was due in June 1907 remains still unrecovered and the Deputy Commissioner to whom this default was communicated reports that the accounts of the two banks are being audited and that it is not possible at this stage to fix the amount of the annual instalment payable by the members A balance of loan amounting to Rs. 10,201-15-8 and interest to Rs. 17,221-7-2 are due by the members of the Chikmagalur Bank towards their loan account as well as Rs. 275-5-8 and Rs. 393-7-10 respectively towards advances made for working expenses and interest thereon. The Deputy Commissioner who was asked to report the steps taken by him to recover these balances states that notices have been issued to the members to pay the amount and that their reply is awaited.

Hassan District.—The only in this District is the Saklespur Bank and the instalments due by it in 1906-07 on account of the loan of four lakhs of rupees and the interest due thereon amounted to Rs. 39,712-11-8 and Rs. 28,753-5-4 respectively. The balances of loan and interest outstanding on 30th June last after crediting the recoveries made during the year were Rs. 32,044-15-9 and Rs. 19,056-5-10 respectively. The amounts of Rs. 16,980-0-11 and Rs. 268-5-10 were also outstanding against the same bank at the end of 1906-07 on account of advances made to it to the extent of Rs. 84,297-5-9 for working expenses and the interest that accrued thereon. The entire balance of loan and interest outstanding against the

bank and also the advances made for working expenses up to June 1905 were ordered to be recovered in twenty equal instalments. The balance of advances shown above includes all the advances that have been made for working expenses year after year subsequent to June 1905. In Government Order No. 2407-10—R. F. 100-96, dated the 28th November 1902, it has been ordered that only such sums as are necessary for the up-keep of the estates and can be got back from the crops of the year should be advanced for working expenses. But the advance made by the Deputy Commissioner to this bank in 1906-07 does not satisfy this condition as may be seen from the figures furnished in the margin. The Deputy Commissioner who was requested to explain the large outstanding balance reports that the crops which were promising when the advances were made yielded much less than the estimated quantity on account of the failure of the rains and other causes, and that it was therefore not sufficient to meet the advances as anticipated. As for recovering the arrears of instalment and interest due from the bank, the Deputy Commissioner states that it is impossible to do so as the members are unable to pay anything and that the matter is under correspondence with the Government.

Government Order No. 1457-9—B. 2-06-5 and 5454-7—B. 3-05-25, dated 1-9-05 and 12-3-06, respectively.

Advance 11,501-5-1 Recovery 3,999-6-11 Balance 7,501-14-2

No. Fl. 3793-806—B. 16-07-14, dated Bangalore, 1st February 1908.

Order thereon.—According to the statements furnished by the Deputy Commissioners, the total amount of loans advanced to fifty-nine banks excluding to two late coffee banks at Saklespur and Chikmagalur, is Rs. 7,52,104. The instalments due by them towards the repayment of the above loans at the end of June 1907 amounted to Rs. 4,86,606-8-8, out of which Rs. 2,91,968-8-0, including therein the sum of Rs. 8,265-12-1 paid in excess by some of the banks, were recovered, leaving a balance of Rs. 2,02,903-12-9 in arrears at the end of the year as noted below. These arrears were due by fifty banks, only nine banks having paid up in full the instalments due. It is also noted that no amounts were recovered during the year from the banks at Muduvatti in the Kolar District, Seringapatam in the Mysore District, Somlapura, Santebennur, Joga and Issur in the Shimoga District, Ardikoppa and Sakrepatna in the Kadur District, and Mallapura and Talya in the Chitaldrug District:—

2. The balance of instalments left uncollected at the end of the year is heavy and ranges from 19 to 61 per cent of the total amount due. From the consolidated statement appended to this order, it is observed that only eleven out of the fifty-nine banks have paid up in full the interest due by them. In this connection the Comptroller also brings to notice that while the amounts outstanding are large the recoveries made are small, except a few banks in the Shimoga, Kolar, Tumkur and Mysore Districts, all the banks are heavily in arrears, and that no satisfactory progress is made in recovering the dues even from such of the banks as have been ordered to be wound up. The attention of the Revenue Commissioner is invited to para 8 of Government Order No. 2067-76—R. F. 38-1900 of the 10th November 1902, in which it was directed that in every case, the grant of permission to repay the Government loan by instalments should be made conditional upon the punctual payment of the interest every half year, and that the whole loan should be recalled

in case of default, either of payment of interest or any of the instalments fixed. It is very much to be regretted that there have been such heavy arrears both in respect of interest and instalments. The Revenue Commissioner is requested to issue needful instructions for the very early recovery of the outstanding arrears.

3. Among other differences that are observed between the final figures furnished by the Comptroller and those found in the statements submitted by the Deputy Commissioners, the following in respect of the arrears of instalments and interest outstanding at the end of the year, call for special notice. The attention of the Comptroller is invited to para 3 of Government Order No. Fl. 6089-99—B. 31-06-11 of 9th February 1907, and he is requested to take very early action in the matter and have the differences reconciled by furnishing extracts of his statement to the Deputy Commissioners concerned:—

Letter No. 7003, dated the 7th January 1908; from the Revenue Commissioner in Mysore, submitting for orders the Comptroller's memorandum No. 377, dated the 10th December 1907, asking for specific noting of the purpose of the journey to Mysore made by Mr. T. K. Lakshmana Iyer, late Amildar of the Hosdurga Taluk, and stating that as the claim has been passed by the countersigning officer, he does not see the necessity for the Comptroller to know specifically the object of the journey and that in his opinion the Comptroller's objection is untenable.

No. Fl. 3896-938—S. & A. 157-07-10, dated Bangalore, 6th February 1908.

Order thereon.—The controlling officer's admission of a claim is different from its audit by the Comptroller and both are necessary before it is finally accepted as a charge against Government. As auditor of Government expenditure, it is the duty of the Comptroller to see, before admitting any charge, that it was necessary in the interests of the public service and the particulars of any claim submitted to him for audit should accordingly be given in sufficient detail to enable him to perform that duty. In the case of travelling allowance claims, specific information regarding the purpose of a journey or halt is necessary to ascertain if the general conditions of public expenditure are fulfilled and calls for such information by the Comptroller are quite authorized and should be promptly responded to. It is, however, unnecessary to give elaborate details of the duty on which an officer is employed during the period for which he claims travelling allowance and such details are required only by the countersigning officers for performing the duties required of them as controlling officer by Article 643 of the Mysore Service Regulations. For the requirments of audit, the purpose of journeys and halts to be mentioned in travelling allowance bills should be sufficiently definite to indicate the particular duty on which the claimant is employed and it is not enough to put it down vaguely as "Government duty" or, as in the case under notice, as having been undertaken to see a Government Officer, without alluding to the real object of the journey or halt.

MEMO NO. 8368-77—L. B. 303-07-1, DATED BANGALORE, 22ND FEBRUARY 1908.

The following summary of orders relating to the supply of Amrut Mahal bulls for breeding purposes is issued for general information and should alone be cited in future references:—

Para 3 of G. O. No. 6999-7008—Cir. 123, dated 16th September 1891.

The Amrut Mahal Department should sell to each District Board three good bulls for breeding purposes, and also sell at half price to such persons as the Deputy Commissioners may recommend, bulls for breeding purposes, the number thus sold at concession rates not exceeding five for each district. The full price of the bulls supplied to the District Board and half the price of the bulls sold to raiyats at concession rates should be paid from the District Funds.

Para 4 of Circular No. 123, dated 16th September 1891.

2. The Deputy Commissioners should recommend the sale of bulls at half price only to such raiyats as own large herds of cattle and agree in writing to use them only for breeding purposes.

Para 5 of G. O. No 6999-7008—Cir. 123, dated 16th September 1891.

3. The three bulls supplied to each District Board should be branded with a distinctive mark to prevent them being mixed up with other cattle. One of these three bulls should be kept in the head-quarter taluk of each district and the other two at such places as the Deputy Commissioner may select. If there is any respectable raiyat who is willing to take charge of a bull and feed it at his own cost, it may be made over to him on the condition that he is not to use the bull for any purpose other than breeding and that he should also allow raiyats generally to use it for breeding purposes on payment of a fee of two annas for each covering. If there are no raiyats who are willing to take charge of the bulls on these conditions, they should be maintained at the cost of District Funds and a fee of four annas should be charged on each occasion a bull is allowed to cover.

Para 6 of G. O. No. 6999-7008—Cir. 123, dated 16th September 1891.

4. Officers and raiyats in charge of District Board bulls should maintain a register of the number of cows covered each day, and of the results thereof after obtaining information from the owners of these cows. A paragraph should be devoted in the Annual Administration Reports of District Funds in which all the particulars connected with the subject should be embodied.

G. P. No. 20079-86—L. F. 104-92, dated 23rd May 1894.
G. O. No. 22958-66—L. F. 104-92, dated 28th June 1894.

5. No bull should be supplied free of cost by Government. The price of the bulls supplied to District Boards or sold to raiyats under these rules should be fixed at a uniform rate of Rs. 75 for each bull.

7. The Amrut Mahal Department shall see that only good, healthy and efficient bulls are supplied under these rules, for breeding purposes.

8. As it has been found that Amrut Mahal bulls are accustomed to roam with wild herds until full grown and fail to serve village stud purposes, an annual market would be held at Mysore during the Dasara where all the available surplus young stock of Amrut Mahal cattle will be offered for sale by auction.

9. Arrangements are now made to sell by auction young male calves two or three years old and these sales are regularly held in different places in the State most convenient for the raiyats as it affords them an opportunity of making their own selections near their homes, previous intimation of the date and place of concentration of herd being given to the raiyats with a view among other things, to enable those to whom concession rates are recommended by the District Board to select what will suit their wants.

Government Notification No. R. 1678—L. R. 105-06-1, dated the 7th August 1906, prescribing a set of rules to regulate admissions to, and promotions in, the various grades of the ministerial establishments of the Revenue Department in Mysore.

No. R. 1678—L. R. 105-06-1, dated 7th August 1906.

With a view to improve the efficiency of the various grades of the ministerial establishments of the Revenue Department in Mysore, the Government of His Highness the Maharaja are pleased to prescribe the following rules, in supersession of all rules heretofore in force, to regulate admissions to, and promotions in, the said Department, with effect from the 1st October 1906 :—

1. The Revenue Department for the purposes of these Rules shall comprise the following offices :—

(1) The office of the Revenue Commissioner and *ex-officio* Director of Statistics.

(2) The office of the Survey and Settlement Commissioner and all offices subordinate to him in his Department.

(3) The office of the Registrar of Co-operative Societies.

(4) The offices of Deputy and Assistant Commissioners in all their Branches.

(5) The offices of Amildars and Deputy Amildars in all their Branches.

2. These Rules shall in no wise affect the promotion of persons who held permanent appointments before the Rules came into force, provided their promotion was not already barred by any rules previously in force.

3. No person shall be eligible for appointment to a post carrying a pay of less than Rs. 15 per mensem but classed as superior in the Mysore Service Regulations, or to any of the marginally specified posts* classed as inferior therein, unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility. Provided that, as between a candidate who has passed the Mysore Lower Secondary or other higher examination and an unpassed candidate, the former shall have the preference.

* Clerks, Daftarbands, Mutchis and Gollars.

4. No person shall be eligible for appointment to a post classified as superior in the Service Regulations, and carrying a pay of Rs. 15 and upwards but below Rs. 25, unless he produces a certificate of having passed at least the Mysore Lower Secondary Examination in Kanarese or English, or some other examination accepted by the Government as equivalent to it for the purposes of these Rules, and unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility.

Exception.—The examination qualification prescribed in this rule shall not apply to the posts of Shroffs and Assistant Shroffs.

5. No person shall be eligible for appointment to a post carrying Rs. 25 and upwards, unless he has passed at least the Matriculation Examination of an Indian University.

6. Any Deputy Commissioner who, owing to the paucity of duly qualified candidates for an appointment of the kind referred to in Rule 4 or 5 in his own office or in an office subordinate to him deems it necessary to appoint or to permit the appointment of another candidate not so qualified, shall obtain the sanction of the Revenue Commissioner for such appointment. Such sanction shall not be given unless the existence of the vacancy is notified in three successive issues of Part II of the *Mysore Gazette*, and no applications from qualified candidates are forthcoming in response to such notification within a month of the last publication. In the interim it shall be competent to the Deputy Commissioner to fill up the vacancy temporarily with such person as he may select.

7. A fair proportion of the vacancies in the offices of Deputy and Assistant Commissioners shall be filled by the selection of Taluk Gumastas of approved qualifications, conduct and efficiency.

[*Note.*—This will very materially increase the working power of controlling offices, because of the practical experience which such clerks will bring to the discharge, of their duties. Moreover, passed men will not be slow to take up appointments in Taluk Offices, if sufficient inducement in the shape of prospects of a regular flow of promotion is offered to them. One of the causes of the inefficiency of these establishments is that service in the taluk ordinarily leads to nothing better.]

8. At the end of every official year, Deputy Commissioners shall cause to be prepared a list showing the names, pay, qualifications and length of service of all Taluk Gumastas in their Districts, and the promotions given to the qualified among them during the year, and forward the same to the Revenue Commissioner.

9. Not less than a fourth of the total number of vacancies among Taluk Sheristadars during each official year shall be filled by persons chosen from among the most capable and qualified Shekdars, and not less than a fourth by persons chosen from among the most capable and qualified Taluk Head Gumastas, the remaining vacancies being filled by duly qualified clerks in other offices of the Revenue Department.

10. The claims of candidates for *admission* to the clerical establishments of the Revenue Department shall be accorded preference in the following order:—

(1) Graduates.

(2) Candidates who have passed the First Examination in Arts.

(3) Qualified candidates who hold a certificate from any recognized College of Agriculture.

(4) Candidates who have passed the Matriculation Examination.

(5) Candidates who have passed the Mysore Lower Secondary Examination in Kanarese or English or some other equivalent examination.

11. In awarding *promotions*, preference shall be given to—

(1) Graduates and non-graduates who have passed the Local Service Departmental Tests over men who have not passed such tests.

(2) Graduates who have not passed the Departmental Tests over non-graduates of similar standing in the service, who have also not passed such tests.

Explanation 1.—Clause (2) does not contemplate rapid promotion of a junior unpassed graduate over the heads of non-graduate seniors of long and approved service.

Explanation 2.—All preferential claims to promotion under this Rule are subject to the condition that the claimant has proved himself deserving thereof by efficiency and good conduct.

12. Graduates who have undergone training for a period of not less than six months in the Account Branch, and not less than six months in the Revenue Branch, of a Taluk Office, and for not less than a year as Shekdars, shall, if otherwise qualified by passing the Local Service Departmental Tests, have preferential claims over other graduates of a similar standing, and over candidates of less general educational qualifications of longer standing, for the following offices:—

(1) Taluk Sheristadar, (2) Revenue Head Munshi, Deputy Commissioner's office, and (3) Head Clerk, Assistant Commissioner's office

Deputy Commissioners are requested to afford special facilities for graduates who desire to qualify themselves under this rule.

13. Government have delegated to the officers mentioned below the power of sanctioning exemptions from general education tests, in respect of the appointments specified in each case:—

1. To the Revenue Commissioner.—Acting appointments in the offices of Deputy Commissioners, Assistant Commissioners, Amildars and Deputy Amildars, lasting for any length of time, when the acting allowance available is not more than Rs. 15 per mensem.

2. To the Deputy Commissioners of Districts, excepting Bangalore and Mysore.—Acting appointments in their own offices and in those of Assistant Commissioners, Amildars and Deputy Amildars, lasting for not more than six months, when the acting allowance available is not more than Rs. 15 per mensem.

3. To the Deputy Commissioners of Mysore and Bangalore.—Acting appointments as aforesaid, lasting for not more than three months, provided the acting allowance does not exceed Rs. 15 per mensem.

4. To the Survey and Settlement Commissioner.—Acting appointments in his own office and in offices subordinate to him, lasting for not more than a year, provided the acting allowance does not exceed Rs. 15 per mensem.

Local Funds and Sanitary (Municipal), dated 19th February 1908.

*14. No one shall be appointed to any of the appointments mentioned below unless he has passed the test or tests shown against it:—

(1) Any appointment in the Account Branch of the Deputy Commissioner's office.	Account Test.
(2) Taluk Sheristadar.	Revenue and Criminal Tests (Lower Grade), and Account Test.
(3) Head Clerk, Revenue Head Munshi and Judicial Head Munshi of the Deputy Commissioner's office; and Head Clerk, Assistant Commissioner's office.	Revenue and Criminal Tests (Lower Grade).
(4) Head Clerk in the office of Revenue Commissioner or Survey and Settlement Commissioner.	Revenue Test (Higher Grade).
(5) District Sheristadar.	Revenue and Criminal Tests (Higher Grade) and Account Test.

15. (1) Each Head of an office empowered to appoint shall maintain a Register of all applicants for admission, showing each candidate's name, father's name, caste, date of birth, native place, educational qualifications, tests passed with dates, reference to testimonials and recommendations, names and appointments of relatives, if any, then or previously in Government Service, and any other details that may be found necessary or convenient.

(2) No name shall be entered in the Register unless the Head of the office has satisfied himself personally or by trustworthy recommendations, that the candidate is likely to turn out a useful servant of Government.

(3) In making selections from the Register, due regard shall be had to the desirability—

(i) of selecting the best man available with reference to general and special qualifications, and capacity for work, and

(ii) of preventing appointments in an office being virtually monopolised by individuals of one caste, sect or class.

*Revised Local Service Examination Rules, providing (among other things) for Higher and Lower grades under certain Tests, will be separately issued.

No. 8239-79—Ml. 424-07-1, dated Bangalore, 19th February 1908.

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Sanitary), dated 12th February 1908.

READ—

Letter No. 2053, dated the 6th December 1907, from the Sanitary Commissioner with the Government of Mysore, stating that he intends starting inoculation work on a large scale in the Bangalore City on the lines similar to those followed in the Civil and Military Station, and requesting that Rs. 500 may be sanctioned for payment of remuneration to inoculated persons of the cooly classes at the rate of 4 annas to each adult and 2 annas to each child, and that three Medical Officers whom he intends to depute temporarily for inoculation work may each be allowed a carriage allowance of Rs. 40 a month and an establishment of a clerk on Rs. 15 and a peon on Rs. 8.

2. Letter No. 2322, dated the 18th January 1908, from the same officer submitting fresh proposals on the subject.

No. 7944-57—SAN. 158-07-6, DATED BANGALORE, 12TH FEBRUARY 1908.

ORDER THEREON.—In the revised proposals made in the second letter read above, the Sanitary Commissioner proposes to depute certain officers as full-time inoculators and others as *ex-officio* inoculators and thinks that no special establishment or special allowance will be necessary in the case of the *ex-officio* inoculators. In this the Government agree.

1. Honorary Assistant Surgeon Mr. Gnanapriam Pillay in Bangalore City.
2. Sub-Assistant Surgeon Mr. Siddappa, Kolar Gold Fields and Kolar District.
3. Assistant Surgeon Mr. Jaganatham Pillay, Mysore City and Mysore District

The Health Officers of Bangalore and Mysore, the Divisional Sanitary Officer, Western Circle, the Medical and Sanitary Officers of Districts, Civil Surgeon Miss Ayachummal in Bangalore City, and Assistant Surgeon Miss D'Vaz in Mysore City.

2. As recommended by the Sanitary Commissioner a temporary establishment consisting of a clerk on Rs. 15 and a peon on Rs. 7 is sanctioned to each of the full-time inoculators, Messrs. Gnanapriam, Siddappa and Jaganatham who, while working, respectively, in the Bangalore City, the Kolar Gold Fields and the Mysore City, will, in order to enable them to move about, be granted a bicycle allowance of Rs. 20 per month, as a special case; but while working in the interior of the districts will only draw the usual travelling and halting allowances.

3. A minimum number of inoculations shall be fixed for each inoculating officer, the number for the full-time inoculators being fixed at double the number prescribed for the *ex-officio* inoculators. All Deputy Commissioners and other Revenue Officers will endeavour to bring home to the people the protection afforded by inoculation and co-operate with the inoculating officers in extending the benefits of inoculations to as large a number of people as possible. The names of inoculating officers who have fallen short of the number prescribed shall be reported to Government at the end of each month.

4. Government are also pleased to sanction tentatively for a period of six months, the payment of a small remuneration of annas 4 and 2, respectively, to each adult and child inoculated from among the cooly classes as proposed by the Sanitary Commissioner and direct that such payments be charged to Plague Funds.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 1256, dated the 14th November 1907, from the Sanitary Commissioner in Mysore, submitting his Report on Plague Administration in the Mysore State for the year 1906-07 and stating that the statements relating to sanitation of villages and to rat destruction will be submitted later on.

2. Letter No. 1425, dated the 29th idem, from the same officer, submitting the above statements.

No. 8651-91—SAN. 128-07-11, DATED BANGALORE, 29TH FEBRUARY 1908.

ORDER THEREON.—Government note with regret that during the year under review the plague seizures and deaths in the State numbered nearly double those of the previous year. While the Shimoga and Chitaldrug Districts were comparatively free, the City of Mysore and the districts of Bangalore, Hassan and Kadur suffered largely and mainly contributed to the increase, as shown in the following statement :—

Place	1905-06		1906-07		Increase		Decrease	
	Seizures	Deaths	Seizures	Deaths	Seizures	Deaths	Seizures	Deaths
Bangalore City	559	405	612	478	53	73	..	..
Mysore City	7	5	801	607	794	602	...	...
Bangalore District	559	383	1,771	1,165	1,212	782	...	...

Tumkur do	113	84	145	112	32	28	..	..
Mysore do	347	253	307	209	...	...	40	41
Hassan do	63	48	727	524	664	476	...	...
Shimoga do	809	563	75	47	..	...	733	516
Kadur do	238	167	1,409	1,040	1,171	873	...	...
Chitaldrug do	94	75	3	3	..	...	91	72
Total ..	3,033	2,139	5,983	4,287	Net increase 2,950	2,149	..	.

2. No specific reasons for this large increase are given by the Sanitary Commissioner who only states that in many villages both the people and the officials concerned show a lack of vigilance and promptness of action in dealing with plague preventive measures. But there is abundant reason to believe that in the vast majority of cases, individual houses and entire villages have been evacuated on the appearance of plague or even of dead rats, the people camping out in fields and other open spaces in huts constructed by themselves or with the aid of materials supplied by Government free of charge or at concession rates, and returning to their houses only after these have been limewashed and cleaned and often times disinfected with chemicals. Health camps provided by Government in large towns have also been availed of. It has often been noticed that when a village is evacuated, the inhabitants move only a short distance away from the infected village, as for instance, across a road. Such evacuation must be quite useless as there is nothing to prevent the rats from traversing the few yards intervening between the temporary sheds and the infected houses. With a view to evacuation having a reasonable chance of being successful, the Sanitary Commissioner is requested to prescribe a minimum distance to which villagers should remove and it would then be the duty of district and village officers to see that this minimum is adhered to. There is some scope for improvement in the destruction of rats and in extension of inoculation with the plague prophylactic. The co-operation of local officers of all departments in this behalf is hereby invited.

Local Fund and Sanitary (Sanitary), dated 29th February 1908.

3. The percentage of recoveries to admissions in the Plague Hospitals of Bangalore and the Kolar Gold Fields was 37·12 and 28·88 as against 47·64 and 43·34, respectively, in the previous year.

Letter No. 204, dated 27th December 1904, from the Deputy Commissioner, Mysore District, soliciting sanction to collect fees permanently on cattle brought for sale during the jatra of the Sri Venkataramanaswami temple at Hemagiri in the Krishnarajpete Taluk.

No. 3710-3—Muz. F. 63 of 1902, DATED BANGALORE, 14TH FEBRUARY 1908.

ORDER THEREON.—Fees are being collected from the year 1902-03 on cattle brought for sale at the car festival jatra of the Sri Venkataramanaswami temple at Hemagiri in the Krishnarajpete Taluk. The levy appears to have been made with the consent of the cattle owners under orders of the Sub-Division Officer with the view of obtaining funds for the improvements required to the temple. In the letter read above, the Deputy Commissioner solicited the sanction of Government to levy the fees permanently and he was requested to report on what lands the cattle were being picketted on the occasion. His reply not having been received till now in this office, the sanction of Government has not been given as yet, but the collections are being regularly made and credited to the temple. It is, however, observed that the information called for from this office has been furnished by the Deputy Commissioner in his letter No. 109, dated the 17th August 1907, to the Secretary to Government, General and Revenue Deparments, stating that the jatra is held on Government and temple lands.

2. Under these circumstances, the Government are pleased to sanction the levy of fees on cattle brought for sale during the jatra in connection with the car festival of the Sri Venkataramanaswami temple at Hemagiri in the Krishnarajpete Taluk as per scale noted in the margin. The amount of fees thus collected should be credited to the temple funds for purposes of effecting improvements such as the construction of a rest house for which an estimate of Rs 1,860 has already been received, repairs to the temple and so on.

	Rs.	a.	p.
For every head of grown up cattle ...	0	2	0
For each calf	0	1	0

3. With the view of encouraging cattle owners by organizing a cattle show on the occasion of the jatra, a certain amount will be contributed from the temple funds to the District Funds for awarding prizes, etc.

34	8317-19 228-06-6	20	Dy. Comr. & Presdt., Dt. Bd., Bangalore, Secy., Muz. Dept., & Chief Engr.	States that Government consider that the repair of the road leading to Ghati Subramanyaswami temple at a cost of Rs. 2,000 does not seem to be an immediate necessity, that the more urgent needs are the provision of water for men and cattle and a foot-path from the temple to the Maklidrug Railway Station and requests the President that the question of water-supply will receive consideration in the Muzrai Department.

SECTION 2—MUNICIPAL

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR FEBRUARY 1908.

Serial No.	Proceedings			Subject and Order
	No.	Date	To whom sent	
1	7587-8 / 381-07	1	Comptr. & Presdt. of Munis., Chitaldrug	Sanctions a refund bill for Rs. 5 in favor of Mr. Seshagiri Rao, Pleader, Chitaldrug, being the amount erroneously credited to the Municipal Funds of the Chitaldrug town as ground rent recovered from one Jayakumaraiya, agent of a dramatic troupe, for pitching a tent for giving dramatic performances on a vacant land at the entrance of the sante bagal in the town of Chitaldrug and belonging to Mr. Seshagiri Rao.
2	7598 / 107-07-7	3	Presdt., Bangalore City Muni. Council	Records his report in regard to the acquisition of lands and the formation of roads in the new extension between Chamarajendrapet and Basavangudi Extensions of the Bangalore City, with the observation that the maintenance of separate accounts enjoined in Government Order No. 2327, dated 9th September 1907, is with reference to the amounts advanced from Municipal Funds towards extension charges and is irrespective of advances for house-building and recoveries thereof, and calls for additional information in the matter.
3	7601-3 / 392-07-2	3	Dy. Comr., Bangalore, Presdt., Bangalore City Muni. Council, & Chief Engr.	Forwards the petition registered No. 5270 from the inhabitants of Karetimmanahalli otherwise known as Anchepalya, Bangalore Taluk, with a request that steps may be taken to acquire and allot land No. 2 of the village for building purposes and calls for a report as regards extending the pipe-line to a point on the Mysore-Bangalore road nearest to the said land.
4	7604-5 / 355-07-4	3	Presdt. of Munis., Tumkur, & Comptr.	Records and communicates to Comptroller the President's communication stating with reference to Government Order No. 6517-8, dated 20th January 1908, that a sum of Rs. 192 was appropriated from the provision under "IV. Conservancy (*b*) Other charges and (4) Tools and plant" in the current year's budget of the Tiptur Municipality, on account of the pay of two scavengers of that Municipality.
